**State financial aid for the promotion of agricultural investments**

**2024 EDITION**

# SUMMARY

 Aid for young people for agricultural investments made on collective land	04
Hydro-agricultural developments Agricultural properties	13
 Pumping water for irrigation using solar energy	20
Genetic improvement	24
Certified seeds and fruit plantations	33
Farm equipment	48
Valuation units	71
Promotion and diversification of exports	79
Aid for aggregation projects	86

## **Foreword:**

In a context marked by climate change, the extension of areas driven by localized irrigation is essential to ensure sustainable food security in Morocco. It is within this framework that the new agricultural strategy "**Generation Green**" launched in 2020 by His Majesty King Mohamed VI may God help him aims to put in place the increase in yield and the enhancement of human capital at the heart of its foundations.

This strategy for the development of the agricultural sector aims to consolidate the achievements of the Green Morocco Plan launched in 2008 in all agricultural production sectors, while giving priority to the human element, to bring about the emergence of an agricultural middle class, capable of playing an important role in the socio-economic balance of rural areas. This strategy is also based on the sustainability of agricultural development by providing a system of State financial incentives granted through the Agricultural Development Fund (FDA) for the benefit of farmers with the aim of promoting private agricultural investments.

To meet the objectives of the "Green Generation" strategy, the Ministry of Agriculture, Maritime Fisheries, Water and Forests and Rural Development has made adjustments to the level of incentives granted to farmers and has joined an ambitious project to digitalize the aid system **and agricultural incentives**. This project aims to digitize the process of submitting and processing grant application files.

Also, in order to limit the travel of investors to one-stop shops, a web portal and a mobile application will be set up to allow farmers to make appointments for the submission of their files and the necessary supplements, the monitoring of the processing of files.

# AIDES AUX JEUNES POUR INVESTISSEMENTS AGRICOLE REALISES SUR LES TERRES COLLECTIVES

## - AID TO YOUTH FOR AGRICULTURAL INVESTMENTS MADE ON COLLECTIVE LAND:

- Joint order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, the Minister of the Interior and the Minister Delegate to the Minister of Economy and Finance in charge of the Budget n°3017 -23 of 16 Jourmada I 1445 (November 30, 2023) fixing the rates, amounts, and ceilings of State financial aid granted to agricultural investments made on collective lands as part of the melkization and rental of land or of the modernization of agricultural operations, as well as the terms of submission of applications to benefit from it, and the terms of their granting.[BO 7292 Ar.](#)

**NB: The provisions of this decree apply until December 31, 2030.**

### 1- INVESTMENT ASSISTANCE:

#### has. Rates and ceilings:

- For members of ethnic communities who have carried out agricultural investment projects within the framework of group melkization and members of ethnic communities aged between 18 and 40, without fixed employment or stable income and who are neither owners nor operators of agricultural land at the national level with the exception of collective land subject to the investment project and who have carried out agricultural investment projects within the framework of melkization on an individual basis:

Level investment	Components of the investment project carried out	Unit amount in (Dh/ha)	
		Species annual	Species Perennial
<b>Level 1</b>	Implementation of new cultures	2,000	3,000
<b>Level 2</b>	Level 1 components (Implementation of new cultures) And Development of the farm (breaking or stone removal or track development or implementation of water and soil conservation techniques) Or Construction of technical buildings for agricultural use (input storage shed or shelter for equipment excluding buildings linked to the management of the irrigation network).	4,000	5,000
<b>Level 3</b>	Level 1 components (Implementation of new cultures) And Hydro-agricultural development (localized irrigation or supplementary irrigation) Or Acquisition of agricultural equipment (at least one self-propelled power equipment and two different supporting equipment adapted to the crop practiced) Or Construction and equipment of the modern livestock building Or Construction and equipment of recovery unit	6,000	7,000

- For projects involving both annual crops and plantations, investment aid is calculated by weighting the percentages of areas of annual crops and plantations carried out in relation to the overall area.
- The aid specified for each of the levels indicated in the table above cannot be combined. The amount of investment aid is capped at 20 ha per project.

- For members of ethnic communities aged over 40 who have made investments within the framework of Melkization on an individual basis:

Level investment	Components of the investment project carried out	Unit amount in (Dh/ha)	
		Species annual	Perennial Species
<b>Level 1</b>	* Implementation of new cultures	1,000	2,000
<b>Level 2</b>	* Components of level 1 (Implementation of new cultures) And * Development of the farm (breaking or stone removal or track development or implementation of water and soil conservation techniques) Or * Construction of technical buildings for agricultural use (input storage shed or shelter for equipment excluding buildings linked to the management of the irrigation network).	3,000	4,000
<b>Level 3</b>	* Components of level 1 (Implementation of new cultures) And * Hydro-agricultural development (localized irrigation or supplementary irrigation) Or * Acquisition of agricultural equipment (at least one self-propelled power equipment and two different accompanying equipment adapted to the crop practiced) Or * Construction and equipment of the modern livestock building Or * Construction and equipment of recovery unit	4,000	5,000

- For projects involving both annual crops and plantations, investment aid is calculated by weighting the percentages of areas of annual crops and plantations carried out in relation to the overall area.
- The aid specified for each of the levels indicated in the table above cannot be combined. The amount of investment aid is capped at 20 ha per project.

- For tenants meeting the conditions set by the aforementioned Decree No. 2.22.813 and having made agricultural investments within the framework of rental contracts for agricultural land belonging to ethnic communities:

Level investment	Components of the investment project carried out	Unit amount in (Dh/ha)	
		Species annual	Species Perennial
<b>Level 1</b>	Implementation of new cultures	2,000	3,000
<b>Level 2</b>	Level 1 components (Implementation of new cultures) And Development of the farm (breaking or stone removal or track development or implementation of water and soil conservation techniques) Or Construction of technical buildings for agricultural use (input storage shed or shelter for equipment excluding buildings linked to the management of the irrigation network).	4,000	5,000
<b>Level 3</b>	Level 1 components (Implementation of new cultures) And Hydro-agricultural development (localized irrigation or supplementary irrigation) Or Acquisition of agricultural equipment (at least one self-propelled power equipment and two different supporting equipment adapted to the crop practiced) Or Construction and equipment of the modern livestock building Or Construction and equipment of recovery unit	6,000	7,000

- For projects involving both annual crops and plantations, investment aid is calculated by weighting the percentages of areas of annual crops and plantations carried out in relation to the overall area.
- The aid specified for each of the levels indicated in the table above cannot be combined. The amount of investment aid is capped at 20 ha per project.

### **b. The documents constituting the investment aid application file:**

1. A request for aid, established according to the model in Annex 1;
2. Documents allowing the applicant to be identified:
  - For individuals or groups of individuals: o
    - Copy of the identification document of the applicant(s) as applicable.
    - o Copy of the mandate designating the representative for the case of files filed by a group of natural persons;
    - o Copy of the mandate and copy of the agent's identification document, if applicable;
  - For legal entities: o
    - A copy of the statutes or the extract from the commercial register or the cooperative register, if applicable;
    - o A copy of the minutes of the last general meeting;
    - o A copy of the document designating the legal representative as well as a copy of their identification document;
    - o Copy of identification documents of members or shareholders as applicable.
3. For tenants and members of ethnic communities aged 18 to 40 who have carried out agricultural investment projects as part of the rental and melkization operation:
  - A sworn declaration that they are without a fixed job or stable income; and that they are not

not owners or operators of agricultural land on a national scale with the exception of the land subject to the request.

4. Documents allowing identification of the land subject to the agricultural project carried out:

- For the case of members of ethnic communities carrying out projects within the framework of melkization:
  - o A copy of the certificate of ownership subject to charges;
  - o A copy of the investment program planned as part of the melkization operation;
  - o A copy of the release issued by the competent authorities;
- For tenants who have carried out agricultural investment projects as part of the rental operation:
  - o A copy of the rental contract concluded with the Ministry of the Interior.
  - o A copy of the investment program planned as part of the rental operation;
  - o A copy of the release of the investment bond issued by the competent authorities.
- Unless the coordinates of the parcel are mentioned in the parcel identification documents: A topographic plan at an appropriate scale, indicating the location, limits and geographical coordinates of the farm, the subject of the investment.

5. Copy of the purchase invoices for the equipment or the factors for carrying out the work, if applicable;

6. Certificate of bank identity statement (RIB) of the applicant.

## **2- RENTAL ASSISTANCE:**

### **has. Rates and ceilings:**

Rental assistance rate	Annual ceiling per hectare to dirham	Annual ceiling per project in dirham	Overall ceiling per project in dirham
70% of the amount of the rental value	2,500	50,000	150,000

- *Rental assistance is granted for each year of the first three years of rental, for rental contracts with a duration of less than 20 years, and for each of the first five years of rental, for rental contracts of a duration equal to or greater than 20 years, within the limit of the overall amount of the grant for each project.*
- *Rental assistance is granted for the 4th and 5th year, for rental contracts of a duration equal to or greater than 20 years, after obtaining the release certificate.*

### **b. The documents constituting the rental assistance application file:**

1. A grant application, established according to the model in Annex 1;
  2. Documents allowing the applicant to be identified:
    - For individuals or groups of individuals: o
      - Copy of the identification document of the applicant(s) as applicable.
      - o Copy of the mandate designating the representative for the case of files filed by a group of natural persons;
      - o Copy of the mandate and copy of the agent's identification document, if applicable.
    - For legal entities: o
      - A copy of the statutes or the extract from the commercial register or the cooperative register, if applicable;
      - o A copy of the minutes of the last general meeting;
      - o A copy of the document designating the legal representative as well as a copy of their identification document;
      - o Copy of identification documents of members or shareholders as applicable.
  3. For tenants:
    - A sworn declaration that they are without a fixed job or stable income; and that they are not the owner or operator of agricultural land on a national scale with the exception of the land subject to the request.
  4. Documents allowing the identification of the land subject to the project:
    - A copy of the concluded rental contract.
- Unless the coordinates of the parcel are mentioned in the parcel identification documents: A topographic plan at an appropriate scale, indicating the location, limits and geographical coordinates of the farm.
5. Copy of proof of payment of rent for the year for which the aid is requested.
  6. For requests under 4<sup>th</sup> and 5<sup>th</sup> year: A copy of the release of the investment bond issued by the competent authorities.
  7. Certificate of Bank Identity Statement (RIB) of the applicant.

### **3- ADDITIONAL HELP:**

#### **has. Rates and ceilings:**

<b>Investment operations and components concerned by the additional grant</b>	<b>Rate of additional aid applied on the amount of the subsidy received by the applicant for the investment operations carried out</b>
Localized irrigation projects carried out individually by farmers operating a total area of more than 5 Ha	25%
Individual supplementary irrigation projects	25%
Acquisition of agricultural equipment	33%
Acquisition of the equipment necessary for livestock operations	33%
the construction of "modern stable" type and "modern sheepfold and goat barn" type livestock buildings	60%
The creation of olive orchards	10%
Creation of plantations of fruit rosaceae, argan tree and other species provided for in article 1	17%
Creation of new date palm plantations	14%

- *Additional aid is granted, for farmers who are members of ethnic communities who have carried out agricultural investment projects as part of the melkization operations, for operations and components of agricultural investments which were initiated and completed between the date of signature of the melkization contract and the date of obtaining the release certificate.*
- *Additional aid is granted, for tenants meeting the conditions stipulated in the aforementioned Decree No. 2.22.813, having carried out agricultural investment projects within the framework of rental of collective agricultural land, for operations and investment components agricultural activities which were initiated and completed between the date of signing the rental contract and the date of obtaining the release certificate. The additional aid is granted to farmers, members of ethnic communities who have completed these operations as part of the modernization of their agricultural operations, from the date of publication of Decree No. 2.22.813 above-mentioned in the Official Bulletin.*

#### **b. The documents constituting the additional assistance application file:**

1. A request for aid, established according to the model in Annex 1;
2. Documents allowing the applicant to be identified:
  - For individuals or groups of individuals: o
    - Copy of the identification document of the applicant(s) as applicable.
    - o Copy of the mandate designating the representative for the case of files filed by a group of natural persons;
    - o Copy of the mandate and copy of the agent's identification document, if applicable.
  - For legal entities: o
    - A copy of the statutes or the extract from the commercial register or the cooperative register, if applicable;
    - o A copy of the minutes of the last general meeting;
    - o A copy of the document designating the legal representative as well as a copy of his identification document;
    - o Copy of identification documents of members or shareholders as applicable.

3. For tenants: a sworn declaration that they are without a fixed job or stable income; and that they are not the owner or operator of agricultural land on a national scale with the exception of the land subject to the request.
4. Documents allowing the identification of the land subject to the project:
  - For the case of members of ethnic communities carrying out projects within the framework of melkization:
    - o A copy of the certificate of ownership subject to charges;
    - o A copy of the investment program as part of the melkization operation; A copy
    - o of the release issued by the competent authorities.
  - For natural and legal persons having carried out agricultural investment projects within the framework of rental:
    - o A copy of the rental contract;
    - o A copy of the investment program as part of the rental transaction; A copy of
    - o the release of the investment bond issued by the competent authorities.
  - For members of ethnic communities who have modernized their farms or have modernization projects:
    - o A copy of the collective land use certificate issued by the competent authorities specifying the geographical coordinates of the operation subject to the aid request.
  - Certificate of Bank Identity Statement (RIB) of the applicant.

## AID TO YOUTH FOR AGRICULTURAL INVESTMENTS MADE ON THE COLLECTIVE LANDS:

### 1- Stages of making investments and submitting files

### 2- Deadlines for making investments and submitting grant application files

OBJECT OF THE REQUEST	Time limit	
Investment assistance	12 months	- From the date of granting of the release certificate.
Rental assistance	12 months	- The application for aid can be submitted annually, and in any case within 12 months following the date of payment of the last rent eligible for this aid.
Additional help	12 months	- From the date of granting of the release certificate for agricultural investment projects carried out as part of the Melkization and rental operation. - From the date of submission of the first application for aid for investments made as part of the modernization of agricultural operations.

*Additional deadlines may be granted if the request is made by the applicant before the expiration of the initial deadline.*

**All files are submitted to the one-stop shop against deposit receipts dated and signed**

### REQUEST MORE INFORMATION FROM:

- One-stop shops from the Provincial Directorates of Agriculture or the Regional Agricultural Development Offices

# IRRIGATION LOCALISEE   ET DE COMPLEMENT

## - LOCALIZED AND SUPPLEMENTARY IRRIGATION

- Joint order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, the Minister of the Interior and the Minister Delegate to the Minister of the Economy and Finance, in charge of the budget no. 1323.22 of 17 Chaoual 1443 (May 18, 2022) establishing the modalities for obtaining and granting financial assistance from the State for hydro-agricultural developments on agricultural properties.

**NB:** This joint decree will end on 12/31/2027 or as soon as the total surface area of projects having obtained prior approval reaches 350,000 Ha.

### 1- Rates and ceilings:

#### has. Localized irrigation projects:

- Collective projects:
- Collective localized irrigation project linked to the pressure irrigation network:

Operation and components	Subsidy rate (as a % of cost)	Ceiling of the grant in Dirham (DHs)
<b>Equipment for agricultural operations</b> irrigation network comprising the following components: -Head station, pipes, and drippers	100	38,000 Dh per net equipped hectare

- Collective localized irrigation project not linked to the pressure irrigation network:

Operation and components	Subsidy rate (as a % of cost)	Ceiling of the grant in Dirham (DHs)
<b>Equipment for agricultural operations</b> irrigation network comprising the following components: -Wells and drilling; -Pumping device; -Head station, pipes and drippers	100	38,000 Dh per net equipped hectare
Construction of the water storage basin		50 Dh per m <sup>3</sup> of the total volume of the pool capped at 12,000 Dh per net hectare team

- Individual projects:

- Localized irrigation projects carried out by the small farmer:

Operation	Component	Subsidy rate (in % Cost)	Ceiling of the grant in Dirham (DHs)
<b>Equipment of the farms agricultural in network irrigation</b>	Wells and drilling	100	700 Dh per linear meter of depth
	Pumping device		5,000 Dh per KW of installed power
	Head station		9,500 Dh per net equipped hectare
	Pipelines		12,000 Dh per net equipped hectare
	Drippers		-15,000 Dhs per net hectare equipped with self-regulating drippers -13,000 Dhs per net hectare equipped with turbulent drippers; -10,000 Dh per net hectare equipped with duct.
	Automation		3,000 Dh per net equipped hectare
<b>Basin of storage water</b>	<b>Water storage basin</b>		50 Dh per m <sup>3</sup> of the total volume of the pool

The amount of subsidy that can be granted is capped at 38,000 DH per net equipped hectare. If it is necessary to resort to the construction of basins for the storage of irrigation water, this ceiling may be increased by an amount corresponding to the ceiling set in the table above for the development of irrigation water storage basins. This increase cannot under any circumstances exceed the ceiling of 12,000 DH per net equipped hectare.

- Localized irrigation projects carried out by farmers operating an area of more than 5 hectares and less than or equal to 20 hectares:

Operation	Component	Subsidy rate (as a % of cost)	Ceiling of the grant in Dirham (DHs)
Network	Wells and drilling	75	500 Dh per linear meter of depth
	Device pumping		4,000 Dh per KW of installed power
	Head station		7,100 Dh per net equipped hectare
	Pipelines		9,000 Dh per net equipped hectare
	Drippers		-11,250 Dhs per net hectare equipped with self-regulating drippers -9,750 Dhs per net hectare equipped with turbulent drippers; -7,500 Dh per net hectare equipped with duct.
	Automation		2,300 Dh per net equipped hectare
	Basin of storage water		35 Dh per m <sup>3</sup> of the total volume of the pool

The amount of subsidy that can be granted is capped at **28,500 DH** per net equipped hectare. If it is necessary to resort to the construction of basins for the storage of irrigation water, this ceiling may be increased by an amount corresponding to the ceiling set in the table above for the development of irrigation water storage basins. the water. This increase cannot under any circumstances exceed the ceiling of **9,000 DH** per net equipped hectare.

- Localized irrigation projects carried out by farmers operating an area of more than 20 Ha:

Operation	Component	Subsidy rate (as a % of cost)	Ceiling of the grant in Dirham (DHs)
Network	Wells and drilling	60	400 Dh per linear meter of depth
	Pumping device		3000 Dh per KW of installed power
	Head station		5,700 Dh per net equipped hectare
	Pipelines		7,200 Dh per net equipped hectare
	Drippers		-9,000 Dhs per net hectare equipped with self-regulating drippers -7,800 Dhs per net hectare equipped with turbulent drippers -6,000 Dh per net hectare equipped with duct.
	Automation		2,000 Dh per net equipped hectare
	Basin of storage water		30 Dh per m <sup>3</sup> of the total volume of the pool

The amount of subsidy that can be granted is capped at **23,000 DH** per net equipped hectare. If it is necessary to resort to the construction of basins for the storage of irrigation water, this ceiling may be increased by an amount corresponding to the ceiling set in the table above for the development of irrigation water storage basins. the water. This increase cannot under any circumstances exceed the ceiling of **7,000 DH** per net equipped hectare.

## b. Supplementary irrigation projects:

- Collective projects:
  - Collective supplementary irrigation projects in irrigated areas or other collective irrigation projects:

Operation	Components	Subsidy rate (as a % of cost)	Ceiling of the grant in Dirham (DHs)
Network	Wells and drilling	100	34,000 Dh per net equipped hectare
	<b>Pumping device</b>		
	<b>Sprinkler watering device</b>		
Basin of water storage	<b>Water storage basin</b>		50 Dh per m <sup>3</sup> of the total volume of the basin Capped at 10,000 Dh per net hectare team

- Individual projects:
  - Supplementary irrigation projects carried out by farmers operating an area less than or equal to 20 Ha:

Operation	Components	Subsidy rate (as a % of cost)	Ceiling of the grant in Dirham (DHs)
Network	Wells and drilling	75	500 Dh per linear meter of depth
	<b>Pumping device</b>		4,000 Dh per KW of installed power
	<b>Sprinkler watering device</b>		21,000 Dh per net equipped hectare
Basin of storage water	<b>Water storage basin</b>		35 Dh per m <sup>3</sup> of the total volume of the pool

The amount of subsidy that can be granted is capped at **25,000 DH** per net equipped hectare. If it is necessary to resort to the construction of basins for the storage of irrigation water, this ceiling may be increased by an amount corresponding to the ceiling set in the table above for the development of irrigation water storage basins. the water. This increase cannot under any circumstances exceed the ceiling of **8,000 DH** per net equipped hectare.

- Supplementary irrigation projects carried out by farmers operating an area greater than 20 Ha

Operation	Components	Subsidy rate (as a % of cost)	Ceiling of the grant in Dirham (DHs)
Network	Wells and drilling	60	400 Dh per linear meter of depth
	<b>Pumping device</b>		3,000 Dh per KW of installed power
	<b>Sprinkler watering device</b>		16,000 Dh per net equipped hectare
Basin of storage water	<b>Water storage basin</b>		25 Dh per m <sup>3</sup> of the total volume of the pool

The amount of subsidy that can be granted is capped at **20,000 DH** per net equipped hectare. If it is necessary to resort to the construction of basins for the storage of irrigation water, this ceiling may be increased by an amount corresponding to the ceiling set in the table above for the development of irrigation water storage basins. the water. This increase cannot under any circumstances exceed the ceiling of **6,000 DH** per net equipped hectare.

## **2- Creation of grant application files:**

### **i. Request for prior approval:**

Before the investment is made, the applicant submits the application file for examination of the localized irrigation project or supplement in electronic and paper version. This file includes the following documents:

- A request for prior approval;
- Documents and pieces allowing the applicant to be identified:

*has. For natural persons:*

- Copy of the applicant's identification document;
- Copy of the mandate and copy of the agent's identification document if applicable,

*b. For legal entities:*

- A copy of the statutes or the extract from the commercial register or the register of cooperatives, if applicable;
- A copy of the minutes of the last general meeting;
- A copy of the document designating the legal representative as well as a copy of the document identifying him.
- Any document justifying the applicant's legal link with the project support plot (complete the form reserved for this purpose on the Department of Agriculture electronic site
- For the case of collective projects carried out by groups of farmers who are organized around an agricultural association or cooperative or economic interest group or Agricultural Water User Associations (AUEA), the document justifying the legal link must be submitted for each of the applicant farmers. For collective irrigation projects located in irrigated areas, the document justifying the legal link can be replaced by an operating certificate issued to the applicant by the Regional Agricultural Development Office or the Provincial Directorate of Agriculture.
- In the case of rental of agricultural land, the remaining rental period on the date of submission of the prior approval application file must be greater than or equal to 6 years.
- For the cases of projects carried out by groups of farmers who are organized around an agricultural association or cooperative or economic interest group or Agricultural Water User Associations (AUEA):
  - A signed mandate from the farmers concerned designating the legal representative to request and receive, by proxy, in their name and on their behalf, the financial assistance from the State from which they may benefit under the project;
  - Commitment of the farmers concerned to maintain the subsidized investment
  - Copy of documents and pieces allowing each farmer in the group to be identified.
- Authorization to dig wells or boreholes if applicable;
- Copies of the necessary documents and authorizations justifying the availability of water resources necessary to cover the project's water needs. The documents to be submitted are as follows:
  - Authorizations or concessions relating to the use of the public hydraulic domain (DPH) for the irrigation of the project's operations, for projects for which water withdrawals are authorized;
  - A certificate from the relevant ORMVA or DPA confirming access to water from the collective irrigation network, for projects located within areas developed in part or in full by the State. However, in the event of additional water withdrawals from

- from groundwater, sampling authorization will be required for the wells or boreholes concerned;
- Documents justifying private rights to water resources, for projects with acquired water rights to water resources.
- The technical file of the project which includes the following elements:
  - *A technical calculation note to justify:*
    - The adequacy between available water resources and the water needs of the crops to be irrigated;
    - The sizing of the irrigation project;
    - The stability of the basin as well as the process of its construction and the devices for its security for water storage basins with a total storage capacity exceeding 10,000 square meter (m<sup>3</sup>).
  - *The drawn parts of the project:*
    - A detailed plan of the installation at an appropriate scale; signed and sealed with the endorsement approved by the engineer or technician who established the study.

If the relief is significant, a drawing of the detailed plan of the project must be drawn up, composed of contour curves showing the existing height differences and slopes (dimensional plan).A plan of the shelters specifying their dimensions and the construction materials provided.

- *Estimated quotes for equipment, materials and arrangements grouped by project component;*
- *The supplier's commitment to equip the project with equipment complying with Moroccan Standard No. 12.1.100-2007 (Localized irrigation installation - General requirements);*
- *The equipment test bulletins provided for the project equipment, issued less than two years ago;*
- *Catalogs mentioning the operating characteristics of the main equipment of the installation: pumps, motors, control and adjustment valves, electrical and automation equipment, fertigation equipment and water distributors;*
- *A copy of the documents justifying the technical qualifications of the companies or approval of the design office having carried out the studies and who will supervise the implementation of the project.*

## **ii. Grant application:**

After the investment, the applicant submits the subsidy application file for the localized irrigation project or supplement in electronic and paper version. This file includes the following documents:

- Subsidy request;
- The original final invoices detailed in quantity, unit price and total price and by component. Where applicable, small farmers can present, instead of final invoices, the statements justifying the earthworks of the trenches for the pipes, when they are carried out by the farmers using their own means;
- Copies of proof of payment of final invoices;
- The RIB certificate of the applicant's bank account.

## LOCALIZED AND SUPPLEMENTARY IRRIGATION

### 1- Stages of making investments and submitting files:

### 2- Deadlines for making investments and submitting application files for grant :

Purpose or operation	Deadline for submitting a file	
Projects carried out individually	24 months	From the date of approval prior
Projects carried out collectively	30 months	

*Additional deadlines may be granted if the request is made by the applicant before the expiration of the initial deadline.*

**All files are submitted to the Single Window against dated and signed deposit receipts.**

**Request more information from:**

- One-stop shops from the Provincial Directorates of Agriculture or the Regional Agricultural Development Offices;
- MAPMDREF website:[www.agriculture.gov.ma/FDA](http://www.agriculture.gov.ma/FDA)

NEW

# POMPAGE DE L'EAU DE L'IRRIGATION PAR L'ENERGIE SOLAIRE

## - **PUMPING WATER FROM IRRIGATION BY SOLAR ENERGY:**

- Financing agreement for the pilot project relating to the promotion of solar pumping in irrigation water saving projects.

*This agreement was signed between the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests and the Minister of the Economy and Finance, on February 19, 2024.*

### **1- Rates and ceilings:**

Operation	Subsidy rate (% of acquisition cost and solar kit installation)	Subsidy ceiling		
		CEILING/Ha IRRIGATE (dhs)	CEILING/kwc INSTALLED (dhs)	CEILING OVERALL/PROJECT
Pumping solar	30	3,000	3,000	30,000

*The target area of this pilot project is set at 51,000 Ha distributed by region.*

The eligible solar pump kit may include the following:

- Photovoltaic panels;
- The equipment necessary to ensure optimal operation of the pumps;
- The pump unit;
- The structure and accessories for installation, water volume measurement (flow meters), protection and connection.

### **2- Creation of grant application files:**

#### **i. Request for prior approval:**

Before carrying out the project, the applicant for aid submits to the One Stop Shop for the area in which his operation falls a request for prior approval accompanied by the documents specified in the prior approval procedure.

- Identification document of the applicant;
- Document justifying the legal link with the farm or copy of the certificate of registration in the National Agricultural Register RNA;
- A presentation sheet from the specialized company responsible for the design and installation of the solar pumping project accompanied by references justifying its experience and technical capabilities in the field of solar pumping;
- A descriptive technical sheet of the existing irrigation project accompanied by supporting documents for the use of butane for pumping irrigation water;
- A calculation note for the solar pumping kit and the characteristics of the equipment to be installed, justifying and specifying in particular the installed power in kW peak, the number of photovoltaic panels and their characteristics;
- Technical data sheets for the equipment to be installed;
- Quotes for equipment and work to be carried out.

## **ii. Grant application:**

After completion of the project, the applicant presents to the same Single Window:

- The grant application.
- Original detailed invoices.
- Guarantees from the supplier of solar pumping installations;
- The commitment to maintain and promote subsidized investments for a period of 5 years from the date of the equipment installation report.
- The applicant's Bank Identity Statement.

## PUMPING WATER FROM IRRIGATION BY SOLAR ENERGY

### 1-Stages of making investments and submitting files:

### 2- Deadlines for making investments and submitting application files for grant :

Purpose or operation	Deadline for submitting a file	
Grant application	3 months	From the date of prior approval

**All files are submitted to the Single Window against dated and signed deposit receipts.**

### Request more information from:

- One-stop shops from the Provincial Directorates of Agriculture or the Regional Agricultural Development Offices;
- MAPMDREF website:[www.agriculture.gov.ma/FDA](http://www.agriculture.gov.ma/FDA)

# AMÉLIORATION GÉNÉTIQUE

## - GENETIC IMPROVEMENT:

### 1. ACQUISITION OF IMPORTED DAIRY BREED HEIFER:

- Joint order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, of the Minister Delegate to the Minister of Economy and Finance, responsible for the budget and of the Minister of the Interior no. 1902.23 of 3 Muharrem 1445 (July 21, 2023) modifying the joint order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, of the Minister Delegate to the Minister of Economy and Finance , responsible for the budget and the Minister of the Interior n°650-22 of 21 rejab 1443 (February 23, 2022) setting the terms and conditions for granting State aid for the acquisition of breed heifers imported dairy products. (BO (FR) n°7240 of 10/19/2023)

**NB: This decree will end on December 31, 2026, or if the number of heads benefiting from this aid reaches the limit of 60,000 heads.**

**has. Standards and amount of aid:**

Imported heifers	Amount of the subsidy in DH/Head
imported dairy heifer	6,000

*Imported dairy heifers that can benefit from financial assistance must belong to the following cattle breeds: Holstein Friesian, Holstein black-colored and red-colored, red-colored breeds, Brune, Jersey, Tarentaise, and Normande .*

#### **b. Creation of the financial aid application file:**

After acquiring the imported heifers, the applicant must submit the subsidy application file in a single copy, in electronic and paper form, to the Single Window. This file must include the following documents:

- Documents allowing the applicant to be identified:

*has. For natural persons:*copy of the National Electronic Identity Card (CNIE) or any other document justifying the identity of the applicant and, where applicable, copy of the mandate and copy of the document justifying the identity of the agent;

#### *b. For legal entities:*

- Copy of the statutes or certificate of registration in the commercial register or certificate of registration in the cooperative register, if applicable;
- Copy of the minutes of the last general meeting;
- Copy of the document designating the legal representative as well as a copy of the document justifying his identity.

- Documents allowing the identification of each imported heifer:

*has. Copy of the pedigree of the imported heifer, specifying the date of importation and bearing the words "certified true to the original" affixed by the competent service of the Department of Agriculture or the ORMVA in whose jurisdiction the event took place quarantine ;*

*b. Copy of the cattle identification and support card (CIAB). Acquisition*

- documents for imported heifers:

*has. Final invoice for the acquisition of the imported heifer(s) when the acquisition is made by the applicant for his own account.*

*b. Copy of the final invoice for the acquisition of imported heifers, in the event of a group acquisition carried out by a professional organization for the benefit of its members, accompanied by the delivery note issued by said professional organization to the applicant specifying the CIAB number of each heifer concerned .*

- Bank Identity Statement (RIB) of the applicant.

## 2. ACQUISITION OF PURE BREED DAIRY HEIFER SELECTED AND PRODUCED AT NATIONAL LEVEL:

- Joint order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, the Minister of the Interior and the Minister Delegate to the Minister of the Economy and Finance, responsible for budget no. 1903.23 of 3 Muharrem 1445 (July 21, 2023) setting the amount, conditions and terms of granting State aid for the acquisition of purebred dairy heifers selected and produced at the national level. (BO (FR) n°7240 of 10/19/2023)

**NB: This decree will end on December 31, 2026, or if the total number of selected purebred dairy heifers benefiting from this aid reaches the limit of 120,000 head.**

*has. Standards and amount of aid:*

Domestically selected and produced purebred dairy heifers	Amount of the subsidy in DH/Head
A head of purebred dairy heifer selected and produced at national level	3,000

### b. Creation of the financial aid application file:

To benefit from the above-mentioned financial assistance from the State, the applicant must, after acquiring purebred dairy heifers selected and produced at national level, submit a subsidy application against signed and dated deposit receipt, to the services competent authorities of the Provincial Directorate of Agriculture (DPA) or the Regional Agricultural Development Office (ORMVA), within whose jurisdiction the applicant for aid is located. This file is submitted in paper format and another in electronic format.

The grant application file must include, in addition to the grant request signed by the applicant, the following documents:

#### 1. Documents allowing the applicant to be identified:

*has. For natural persons:*

- Copy of the National Electronic Identity Card (CNIE) or any other document justifying the identity of the applicant and, where applicable,
- Copy of the mandate and copy of the document justifying the identity of the agent;

*b. For legal entities:*

- Copy of the statutes or certificate of registration in the commercial register or certificate of registration in the cooperative register, if applicable;
- Copy of the minutes of the last general meeting;
- Copy of the document designating the legal representative as well as a copy of the document justifying his identity.

#### 2. Documents Justifying the acquisition of selected purebred dairy heifers:

- Copy of the cattle identification and support card (CIAB), drawn up in the name of the natural or legal person applying for aid;
- Invoice or contract for the acquisition of the heifer(s) specifying the name of the applicant using the address of the nursery unit at which the heifers were produced;
- Copy of the contract for the multiplication of pure and selected breed cattle established between the multiplier and the Ministry of Agriculture;
- Certificate issued by a veterinarian bearing the unique National Identification Number (NNI) of the heifer or heifers, attesting to a positive pregnancy of the heifer or heifers concerned;
- Certificate of the RIB bank account of the applicant for assistance.

### **3. ACQUISITION OF CAMEL BREEDINGS:**

- Joint order of the Minister of Agriculture and Maritime Fisheries, the Minister of Economy and Finance and the Minister of the Interior No. 3380-15 of 8 Moharrem 1437 (October 22, 2015) setting out the terms of the aid of the State with a view to intensifying animal production. (BO n° 6432 01/21/2016).

**has. Rates and ceilings:**

Species	Amount of the subsidy in DH/head
camels	5,000

**b. Creation of the financial aid application file:**

**i. Request for prior approval:**

- A request for prior approval;
- A copy of the CIN for natural persons or the statutes and legal documents designating the persons authorized to act on their behalf, for legal entities.

**ii. Subsidy request:**

- A copy of the prior approval certificate;
- A grant request;
- A copy of the subsidy contract for the acquisition of breeding animals, entered into between the breeder or representative of breeders (cooperatives, groups, associations) and the DPA or ORMVA;
- An inventory sheet of the animals to be subsidized, approved by the DPA or the ORMVA, accompanied by a certificate of breed purity;
- The detailed original final invoices for the acquisition of the animals in question;
- An act of commitment to conserve camels for a minimum period of 10 years;
- The RIB certificate of the applicant for assistance.

## **4. PRODUCTION OF SELECTED SHEEP, GOAT AND CATTLE BREEDINGS:**

- Joint order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, the Minister of the Interior and the Minister Delegate to the Minister of the Economy and Finance, responsible for budget no. °2719.22 (October 6, 2022) establishing the terms and conditions for granting State financial assistance for the production of selected purebred breeding cattle. BO n°7143 of November 14, 2022.

**NB: this joint decree will end on December 31, 2026 or when the total number of selected purebred cattle breeders who can benefit from State financial assistance reaches 80,000 head.**

has. Rates and ceilings:

### **> Production of selected purebred breeding stock:**

Species		Amount of the subsidy in DH/head	
		Individual breeders	Breeder groups
Sheep	Male sheep	800	850
	Female sheep	700	750
<b>Imported breeds</b>			
Goats	Male goats	700	750
	Female goats	600	650
<b>Local breeds</b>			
Cattle	Male goats	550	600
	Female goats	450	500
Cattle		- 4000DH/head up to 80,000 heads subsidized	

### **b. Creation of the financial aid application file:**

#### **> Production of selected breeding stock belonging to pure breeds of sheep and goats:**

##### **i. Request for prior approval**

Before carrying out the project, the applicant submits a prior approval request file, in duplicate, to the Single Window. This file includes the following documents:

- A request for prior approval;
- A copy of the CIN for natural persons or copy of the statutes and legal documents designating the persons authorized to act on their behalf, for legal entities;
- For the ANOC group: copy of the minutes of the General Assembly (GA) of formation of the group, copy of the minutes of the last AG of the group, or certificate of membership of the group to the ANOC;

- A copy of the basic contract for the multiplication of sheep or goat breeding stock selected in the nursery units, entered into between the breeders' representative (ANOC) and the Production Sector Development Department.

The certificate of prior approval will be granted to the applicant for the duration of the nursery unit contract and renewed according to the procedure in force after each renewal of the said contract.

## **ii. Grant application:**

After completing the project, the applicant submits a subsidy application file, in duplicate, to the One Stop Shop. This file includes the following documents:

- A copy of the prior approval certificate; A grant request;
- The original of the selection report for the animals produced (sheep or goats), established by the specialized commission designated annually by the Production Sector Development Department;
- The applicant's RIB certificate.
- **Production of selected breeding animals belonging to pure bovine breeds:**

### **oGrant application**

After the selection of purebred breeding cattle, the applicant must submit the subsidy application file in a single copy, in electronic and paper form, to the One Stop Shop. This file must include the following documents:

- Subsidy request;
- Documents and pieces allowing the applicant to be identified: a. For natural persons:
  - *Copy of the applicant's identification document;*
  - *Copy of the mandate and copy of the agent's identification document if applicable,*
- b. For legal entities:
  - *A copy of the statutes or the extract from the commercial register or the register of cooperatives, if applicable;*
  - *A copy of the minutes of the last general meeting;*
  - *A copy of the document designating the legal representative as well as a copy of the document identifying him;*

vs. In the event that the file is submitted by a cooperative or an association for the benefit of its member breeders:

- *A copy of the breeder's identification document.*
- *A list specifying the names of breeders who are members of the association, the address and contact details of their agricultural operations, and the number of heads of selected breeding cattle subject to the aid request.*
- Copy of the basic contract for the multiplication of purebred bovine breeding stock.

- Documents and pieces allowing the identification of the breeding cattle subject to the request:
  - has. Copies of cattle identification and support cards (CIAB) extracted from the SNIT established in the name of the breeder applying for financial aid from the State or the breeder who is a member of the association or cooperative applying for the 'help.
- b. Inventory table of selected bovine breeding stock.
- Certificate of the applicant's RIB.

## **5. PRODUCTION OF SELECTED QUEEN BEES:**

- Joint order of the Minister of Agriculture and Maritime Fisheries, the Minister of Economy and Finance and the Minister of the Interior No. 3380-15 of 8 Moharrem 1437 (October 22, 2015) setting out the terms of the aid of the State with a view to intensifying animal production. (BO n° 6432 01/21/2016).

**has. Rates and ceilings:**

**> Breeder production:**

Operations	Grant amount	
	Individual breeders	Breeders group
Production of queens from selected breeding bees	250 DH/Hive of "queens" breeding bees selected	300 DH/Hive of "queens" breeding bees selected

**b. Creation of the financial aid application file:**

**i. Request for prior approval:**

- Request for prior approval.
- A copy of the CIN for natural persons or copy of the statutes and legal documents designating the persons authorized to act on their behalf, for legal entities.
- A copy of the nursery unit contract for the multiplication of queen bees entered into between the beekeeper or the representative of beekeepers (cooperatives, groups, associations) and the DPA or the ORMVA.

**ii. Subsidy request:**

- A copy of the prior approval certificate;
- A grant request;
- The original report of approval and selection of hives for the production of queen bees, established by a specialized commission appointed annually by the Production Sector Development Department;
- The RIB certificate of the applicant for assistance.

## GENETIC IMPROVEMENT

### 1- Stages of making investments and submitting files:

### 2- Deadlines for making investments and submitting subsidy application files

Purpose or operation	Deadline for submitting a file	
Acquisition of camel breeders	12 months	From the date of prior approval
Production of sheep breeding stock Production of goat breeding stock Production of queen bees	12 months	From the date of the minutes of selection
Production of sheep breeding stock	06 months	
Acquisition of imported heifers.	06 months	From the date of acquisition of imported heifers.
Acquisition of purebred dairy heifers selected and produced at national level	02 months	From the date of acquisition of the purebred dairy heifer or heifers selected and produced at national level.

*Additional deadlines may be granted if the request is made by the applicant before the expiration of the initial deadline.*

**All files are submitted to the one-stop shop against deposit receipts signed and sealed.**

# SEMENCES CERTIFIÉES ET PLANTATIONS FRUITIÈRES

- CERTIFIED SEEDS AND FRUIT PLANTS

## 1- CERTIFIED SEEDS:

### 1.1. Certified cereal seeds:

- Joint order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests and the Minister of Economy and Finance No. 1975.23 of 13 Muharram 1445 (July 31, 2023) granting a marketing subsidy certified cereal seeds and durum wheat seeds of a generation subsequent to the second GUR2 reproduction as well as the storage premium for the 2024-2023 agricultural campaign). BO (Ar) n° 7257 of December 18, 2023).

- Marketing of certified cereal seeds:

**has. Rates and ceilings:**

- o *For nationally produced seeds:*

Certified cereal seeds from national production of soft wheat, durum wheat and barley, pre-basic (G3), basic (G4), first and second reproduction (R1 and R2) categories benefit from the following subsidies:

Species	Amount of subsidy for the agricultural campaign 2023-2024 in (DH/qt)
Soft wheat	210
Durum wheat	290
Barley	210

- o *For seeds of imported origin:*

Certified seeds of imported origin, soft wheat, durum wheat and barley, of pre-basic G3, basic G4, R1 and R2 categories benefit from the following subsidies:

Categories	Carryover year or campaign import	Grant amountin (DH/ql)
G3	in carryover stock for 2020, 2021 and 2022 agricultural seasons or imported into 2023	1000
G4		800
R1		700
R2	imported in 2022 or 2023	700

**b. Creation of the financial aid application file:**

This subsidy is paid to approved seed companies who deduct it from the price of seeds at the time of sale to farmers. The files submitted by seed companies to the competent services of the Department of Agriculture consist of the following documents:

*o For nationally produced seeds:*

- A summary of the certificates of analysis results for the seeds of the year's harvest and a summary of the bulletins of batches of seeds in carryover stock complying with the standards in force, issued by the National Food Safety Office at the start of the agricultural season;
- A summary of cereal seed stocks at the end of the sales period. This report is issued by the national food safety office on the basis of the quantities declared by the seed companies concerned and after verification of said declarations at the storage centers.;
- A detailed invoice for sales by species, varieties and categories, made out in the name of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests;
- A declaration from the seed company in the event of seed loss or damage;
- A RIB certificate from the approved seed company.

*o For seeds of imported origin:*

- A detailed invoice for sales by species, varieties and categories made out in the name of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests;
- A summary of the certificates of the analysis results of imported certified cereal seeds, issued by the national food safety office according to Annex 5 of this joint order;
- A summary of batch slips for imported cereal seeds, in carryover stock, issued by the national food safety office;
- A summary of stocks of imported cereal seeds at the end of the sales period, issued by the national food safety office;
- A declaration from the approved seed company in the event of loss or damage to quantities of imported cereal seeds;
- A copy of the import commitment, endorsed by the customs services;
- A copy of the single import goods declaration (DUM); A copy of the International Orange Seed Lot Bulletin;
- A RIB certificate from the approved seed company.

- **Storage of certified cereal seeds:**

**has. Rates and ceilings:**

Object	Amount of the grant in (DH/ql)
<b>Storage of certified cereal seeds</b>	Coverage by the State of storage costs at the rate of 5DH/ql/month for 9 months of storage up to a quantity of 220,000 quintals of certified seeds of national production and imported. This quantity distributed between the seed companies concerned in proportion to their sales during the 2022-2023 agricultural campaign.

**b. Creation of the financial aid application file**

This aid is paid to seed companies with carryover stock. The files deposited by seed companies with the competent services of the Department of Agriculture, consist of the following documents:

- The overall inventory invoice, established on the basis of a certificate specifying the quantity which can benefit from the storage bonus issued by the production sector development department;
- A summary of stocks of cereal seed batches complying with current standards;
- A RIB certificate from the seed company.

## **1.2. Monogerm sugar beet seeds:**

- **Joint order of the Minister of Agriculture and Maritime Fisheries and the Minister of Economy and Finance n°2965.14 of 18 chawal 1435 (August 15, 2014) setting the amount of the subsidy for the marketing of monogerm beet seeds sugar. (BO Ar n°6305 of November 3, 2014)**

**has. Rates and ceilings:**

Object	Grant amount
Marketing of the seeds sugar beet monogerms	800 DH per unit (1 unit = 100,000 monogerm seeds)

### **b. Creation of the financial aid application file:**

This subsidy is paid to seed companies which deduct it from the price of seeds at time of sale to farmers. The files submitted by seed companies to the competent services of the Department of Agriculture consist of the following documents:

- A summary statement of the bulletins for the single-germ seed batches of sugar beet, issued by the ONSSA according to the model in force for the importation of the year and for the carryover stock;
- A statement of sales to farmers, drawn up according to the model in force and signed by the sugar company;
- A final stock situation established according to the model in force and signed by the seed company;
- The invoice drawn up and signed by the seed company concerned, specifying the quantities of monogerm seeds sold to farmers by itself or by the sugar company concerned, the subsidized retrocession price and the amount of the subsidy (unit and global);
- Import invoices;
- A copy of the import commitment, stamped by the customs services;
- A copy of the DUM endorsed by the customs services.

### 1.3. Seeds and plants of round tomatoes and onions, potato seeds:

- Joint order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests and the Minister Delegate to the Minister of Economy and Finance, in charge of budget no. 1993.23 of 13 Muharram 1445 (13 July 2023) providing assistance with the acquisition of round tomato seeds and plants, potato seeds and onion seeds and plants. (BO (AR) n° 7226 of August 31, 2023)  
**has. Rates and ceilings:**

Object		Grant amount (Dhs/hectare)
Tomato round	Certified seeds and plants of the round tomato grown in a greenhouse;	70,000
	Certified seeds and plants of field-grown round tomatoes;	40,000
Apple of earth	Certified potato seeds;	15,000
	Uncertified potato seeds;	8,000
Onion	Certified onion seeds and plants;	5,000
	Non-certified onion seeds and plants;	4,000

*This subsidy is granted for the 2023 and 2024 campaigns.*

#### b. Creation of the financial aid application file\*:

- 1- The grant application established according to the model annexed to this decree;
- 2- Documents justifying the identity of the applicant:
  - For natural persons:
  - Copy of the National Identity Card (CIN);
  - A copy of the power of attorney and a copy of the agent's identity document, if applicable;
  - For legal entities:
  - A copy of the statutes or the extract from the commercial register or the register of cooperatives, if applicable;
  - A copy of the minutes of the last general meeting;
  - A copy of the document designating the legal representative as well as a copy of the document identifying him;
- 3- Detailed final invoices for the acquisition of certified seeds and certified plants indicating the varieties and quantities acquired, issued by approved institutions.
- 4- A RIB certificate from the aid applicant;

*\* The State financial aid application file must be submitted within two (2) months from the planting date.*

## **2- CREATION OF NEW SUGAR CANE PLANTATIONS:**

- **Joint order of the Minister of Agriculture and Maritime Fisheries, the Minister of the Interior and the Minister of the Economy and Finance No. 2825.13 of 19 kaada 1434 (September 26, 2013) granting State aid to the creation of new sugar cane plantations. (BO n° 6202 of November 7, 2013)**

**has. Rates and ceilings:**

<b>Object</b>	<b>Grant amount</b>
Installation of new sugar cane plantations	6,000 DH/ha

### **b. Creation of the financial aid application file:**

After the plantings have been completed and the crop has been successfully raised, the applicant submits a subsidy application file, in duplicate, to the one-stop shop under the DPA or the ORMVA concerned. This file includes the following documents:

- A request for the grant;
- A copy of the CIN for natural persons;
- A copy of the statutes and legal documents designating the persons authorized to act on their behalf for legal entities;
- Administrative documents justifying the legal link of the applicant with the property to be planted;
- A copy of the cultivation/aggregation contract with the sugar refinery;
- The delivery note bearing the references to the minutes of the commission for the selection of cane cuttings justifying the acquisition and the phytosanitary state of the cuttings;
- An act of commitment from the applicant to retain the investment, for at least five (5) years, from the date of the completion report, and to ensure all the conditions for the success of the plantation subject to this investment;
- The applicant's RIB certificate.

### 3- FRUIT ARBORICULTURE:

- Joint order of the Minister of Agriculture and Maritime Fisheries, the Minister of the Interior and the Minister of Economy and Finance n°3809-15 of 29 Moharram 1437 (November 12, 2015) modifying and supplementing the order joint n°1443-10 of 19 Jourada I 1431 (May 4, 2010) granting State aid for the creation of new date palm plantations. BO n° 6514 of November 3, 2016)
- Joint order of the Minister of Agriculture and Maritime Fisheries, the Minister of the Interior and the Minister of the Economy and Finance n°1877-13 of 5 Chaabane 1434 (June 14, 2013) modifying and supplementing the order joint n° 354-69 of 10 Jourada I 1389 (July 25, 1969) setting out the terms of State aid for the creation of orchards. (BO n° 6184 of September 5, 2013)
- Joint order of the Minister of Agriculture and Maritime Fisheries, the Minister of the Interior and the Minister of Economy and Finance n°2397.10 of Ramadan 15, 1431 (August 26, 2010) modifying joint order n°354 -69 of 10 Jourada I 1389 (July 25, 1969) establishing the terms of State aid for the creation of orchards. (BO n°5880 of October 7, 2010)

**has. Rates and ceilings:**

Object	Grant rate or amount	Ceiling of the subsidy (DH/ha)
Creation of news plantations of date palms	Plantations carried out for densification and rehabilitation of palm groves (1)  Plantations carried out for the extension of palm groves (minimum density: 100 plants/ha)	100% of the purchase price of the plants  70% of the price acquisition of plants 35,000 DH/ha
Creation of orchards olive homogeneous (2)	Drip irrigated (density $\geq$ 285 plants/ha) from the agricultural companion 2014/2015  Irrigated including drip (density $<$ 285 Plants/ha and $\geq$ 100 plants/ha)  Bour (density $\geq$ 100 plants/ha)	5,000 DH/ha  3,500 DH/ha  3,500 DH/ha
Replantings Fruit farms	Planting after uprooting plantations attacked by fire blight (3)	12,000 DH/ha for olive trees 15,000 DH/ha for peach, plum, nectarine and cherry trees
Rosacea fruit trees (4)	Apple tree (minimum density: 400 plants/ha)  Pear tree (minimum density: 400 plants/ha)  Quince tree (minimum density: 200 plants/ha)  Medlar (minimum density: 140 plants/ha)  Peach/nectarine (minimum density: 200 plants/ha)  Plum tree (minimum density: 200 plants/ha)	17,000  17,000  11,000  7,000  10,000  10,000

Object	Grant rate or amount	Ceiling of the subsidy (DH/ha)
Cherry tree (minimum density: 170 plants/ha)		9,000
Irrigated almond tree (minimum density: 200 plants/ha)		5,000
Almond tree in bous (minimum density: 100 plants/ha)		3,500
Argan tree  Argan tree in bous (minimum density: 100 plants/ha) Argan tree	80% of the price acquisition of plants	6,000
Irrigated argan tree (minimum density: 200 plants/ha)		9,000
Other species fruit trees  Irrigated fig tree (minimum density of 230 plants/ha)  Fig tree in bous (minimum density of 140 plants/ha)  Grenadier (minimum density of 200 plants/ha)  Walnut (minimum density of 70 plants/ha)  Carob tree (minimum density of 100 plants/ha)  Pistachio tree (minimum density of 200 plants/ha)	60% vesting plants	6,000
		3,500
		6,000
		10,000
		6,000
		8,000

(1) State aid is granted to the farmers concerned in the form of plants which will be returned to them within the framework of the plant acquisition programs approved by the services of the Department of Agriculture.

(2) and (3) cannot be combined for the olive tree.

(3) and (4) cannot be combined for the olive tree, cherry tree, peach tree, nectarine tree and plum tree.

## b. Creation of the financial aid application file:

### > Creation of new olive plantations:

#### i.Request for prior approval:

Before carrying out his planting project, the applicant submits an application file prior examination, in duplicate, at the one-stop shop. This file includes the following documents:

- A request for prior approval;
- A copy of the CIN for natural persons;
- A copy of the statutes and legal documents designating the persons authorized to act on their behalf, for legal entities;
- Administrative documents justifying the legal link of the applicant with the property supporting the investment;
- A descriptive sheet of the project specifying in particular the area to be planted, the density, the irrigation method and the estimated cost of the project.

## **ii. Grant application:**

After completing the project, the applicant submits a grant application file, in duplicate, to the one-stop shop. This file includes the following documents:

- The certificate of prior approval;
- A grant request;
- Detailed original final invoices, issued by approved nurserymen and marked "certified plants";
- An act of commitment from the applicant to retain the investment, for at least five (5) years, from the date of the completion report, and to ensure all the conditions for the success of the orchard, the subject of this investment;
- The applicant's RIB certificate.

### **-Densification and rehabilitation of palm groves:**

For plantations carried out for the densification and rehabilitation of palm groves, State aid is granted to the farmers concerned in the form of plants which will be returned to them within the framework of the plant acquisition programs approved by the services of the Department of Agriculture.

### **-Extension of palm groves:**

#### **i. Request for prior approval:**

Before carrying out his planting project, the applicant submits an application file prior examination, in duplicate, at the one-stop shop. This file includes the following documents:

- A request for prior approval;
- A copy of the CIN for natural persons;
- A copy of the statutes and legal documents designating the persons authorized to act on their behalf, for legal entities;
- Administrative documents justifying the legal link of the applicant with the property supporting the investment;
- A descriptive sheet of the project specifying in particular the area to be planted, the variety(ies) envisaged, the density, the irrigation method and the estimated cost of the project.

#### **ii. Grant application:**

After completing the project, the applicant submits a grant application file, duplicate copy, from the one-stop shop. This file includes the following documents:

- The certificate of prior approval;
- A grant request;
- The detailed original final invoices for the vitro-plants;
- An act of commitment from the applicant to retain the investment, for at least five (5) years, from the date of the completion report, and to ensure all the conditions for the success of the plantation, the subject of this investment
- The applicant's RIB certificate.

## **-Creation of new plantations of fruit rosaceae, argan and other fruit species:**

### **i. Request for prior approval:**

Before carrying out his planting project, the applicant submits an application file examination, in duplicate, at the one-stop shop. This file includes the following documents:

- A request for prior approval;
- A copy of the CIN for natural persons;
- A copy of the statutes and legal documents designating the persons authorized to act on their behalf, for legal entities;
- Administrative documents justifying the legal link of the applicant with the property supporting the investment;
- A descriptive sheet of the project specifying in particular the area to be planted, the density, the irrigation method and the estimated cost of the project.

### **ii. Grant application:**

After completing his planting project, the applicant submits a subsidy application file, in duplicate, to the one-stop shop. This file includes the following documents:

- The certificate of prior approval;
- A request for the grant;
- an act of commitment from the applicant to maintain the investment, for at least five (5) years, from the date of the completion report, and to ensure all the conditions for the success of the orchard subject to this investment;
- The detailed original final invoices:
  - For almond trees, these invoices must be issued by approved nurserymen and marked "certified plants";
  - For the argan tree and other fruit species, the final invoices must:
    - Either bear the words "certified plants";
    - Or be delivered by approved nurserymen whose phytosanitary quality is certified by the competent services. A phytosanitary certificate issued by the ONSSA to the nurseryman is required in this case. The references of this certificate (number, date, lot, etc.) will be included in the final invoice;
- The applicant's RIB certificate.

## **4- LABORATORY ANALYZES:**

- Joint order of the Minister of Agriculture and Agrarian Reform and the Minister of Finance No. 1060-90 of 7 Safar 1411 (August 29, 1990) setting the rate and ceiling of the subsidy for laboratory analyzes in the agricultural sector. BO n°4068 of October 17, 1990.

**has. Rates and ceilings:**

Object	Subsidy rate (% of cost)	Grant ceiling
Laboratory analyzes	50%	Depending on the type of analysis

### **b. Creation of the financial aid application file:**

This subsidy is paid to the laboratories which deduct it from the cost of the analyzes for the benefit of farmers at the time of payment.

The files submitted to the competent services of the Department of Agriculture by laboratory representatives consist of the following documents:

- The price scales applied by the laboratory;
- Copies of invoices approved by farmers, showing the price of the analysis and the amount of the subsidy deducted;
- Copies of analysis bulletins issued to farmers;
- A monthly summary statement, highlighting:
  - o The nominative list, with full addresses, of farmers who benefited from the subsidy relating to the analyzes carried out;
  - o The types and number of analyzes carried out per farmer;
  - o The overall amount of the subsidy deducted.
- The applicant's RIB certificate.

## 5- ORGANIC PRODUCTION:

- Joint order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, the Minister of the Interior and the Minister of the Economy, Finance and Administration Reform No. 2794- 19 of 16 Rabii II 1441 (December 23, 2019) fixing the rates, ceilings and terms of granting aid for the certification of plant products, livestock and bee products obtained according to the organic production method . BO n° 6862 FR of March 5, 2020.

has. Rates and ceilings:

- **Plant-based products:**

<b>Area of the Unit production</b>	<b>Subsidy rate (% of cost)</b>	<b>Ceilings in DH/Unit/year</b>
Equal or greater than 0.5ha and less than 5ha	90%	10,000
Equal to or greater than 5ha and less than 10ha		20,000
Equal to or greater than 10ha and less than 20ha	70%	30,000
Greater than 20ha		40,000

- **Animal products:**

<b>Certification of livestock and bee products</b>	<b>Subsidy rate (% cost)</b>	<b>Ceilings in DH/Unit/year</b>
	80%	25,000

### b. Creation of the financial aid application file:

The subsidy request for organic production is made on the basis of a document issued by the control and certification body justifying that the production unit is being converted to organic production mode or on the basis of certificate of conformity attesting that the production unit is certified according to the organic production method. The grant application file includes the following documents:

- A grant request
- Documents relating to the applicant:
  - For natural persons:
    - Copy of the applicant's identity document;
    - If applicable, copy of an identity document of the agent and a true copy of the original of the mandate.
  - For legal entities:
    - Copy of the statutes;
    - Copy of the minutes of the last general meeting;
    - Copy of identity documents of the legal representative.
- Any document justifying the ownership, rental or any legal link of the subsidy applicant with the production unit.

- Copy of the certificate of conformity or any document issued by the control and certification body justifying that the products are obtained using the organic production method;
- A certificate issued by the control and certification body specifying the surface area of the production unit intended for organic production;
- Invoices justifying the certification costs;
- A commitment from the applicant to maintain the production unit in operation according to the organic production method subject to the subsidy request for a minimum period of five (5) years from the 2<sup>th</sup> year of certification

## CERTIFIED SEEDS, PLANTATIONS AND ORGANIC PRODUCTION

### 1- Stages of making investments and submitting files:

### 2- Deadlines for making investments and submitting grant application files:

Purpose or operation	Deadline for submitting a file	
Certified cereal seeds	12 months	From the end date of the season seed marketing
Round tomato and onion seeds and plants, potato seeds	2 months	From the date of planting
Fruit plantations	12 months	From the date of approval prior
New sugar cane plantations	6 months	From the date of delivery of the cuttings
Fruit replanting following the uprooting and incineration of plantations affected by Trèsza or fire blight	24 months	From the date of the certificate grubbing
Organic production	6 months	From the date of obtaining the certificate or any document attesting that the products are obtained according to the method of organic production

*Additional deadlines may be granted if the request is made by the applicant before the expiration of the initial deadline.*

**All files are submitted to the one-stop shop against dated and signed deposit receipts.**

**Request more information from:**

- One-stop shops, Provincial Directorates of Agriculture or Regional Agricultural Development Offices
- MAPM/FDA website:[www.agriculture.gov.ma /FDA](http://www.agriculture.gov.ma /FDA)

# ÉQUIPEMENT DES EXPLOITATIONS AGRICOLES

## - FARM EQUIPMENT:

### 1. ACQUISITION OF AGRICULTURAL EQUIPMENT:

- *Joint order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, the Minister of the Interior and the Minister of the Economy and Finance No. 1051-18 of 22 Mouharrem 1440 (2 October 2018) setting out the terms of state aid for the acquisition of agricultural equipment. (BO: n°6770 of 4/18/2019)*
- *Joint Order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, the Minister of the Interior and the Minister of the Economy, Finance and Administration Reform No. 2411 -19 of 29 Safar 1441 (October 28, 2019) setting the amounts, rates, ceilings and terms of granting subsidies granted to agricultural aggregation projects. (BO n°6992 of June 3, 2021)*

**has. Rates, ceilings and standards:**

#### -Tractors:

Material	Universal diet/First aggregation slice		Second tranche of aggregation		Number of units eligible for grant
	Rate (% Cost acquisition)	Ceiling (DH/unit)	Rate (% Cost acquisition)	Ceiling (DH/unit)	
<b>2-wheel drive tractors:</b> - Less than 50 HP - From 50 CV to less than 70 CV - 70 HP and more	30%	52,000 62,000 72,000	10%	17,000 21,000 24,000	- 1 unit for an area less than 5 ha - 2 units for an area of 5 ha to less than 10ha - 3 units for an area of 10 ha to less than 20 ha - 4 units for an area of 20 ha to less than 50 ha - 5 units for an area of 50 ha to 100 ha - Beyond 100 ha: 1 unit for each 100 ha additional
<b>4-wheel drive tractors:</b> - Less than 50 HP - From 50 CV to less than 70 CV - 70 HP and more	30%	60,000 70,000 80,000	10%	20,000 23,000 27,000	

(\*) The effective power of the engine expressed in CV is that fixed in the approval report for tractors bearing approval by type or on an individual basis and issued by the competent services. If necessary, the conversion rate is: 1kw=1.3596 HP.

#### -Towed ground work and maintenance equipment:

Materials	Universal diet/First aggregation slice		Second tranche of aggregation		Number of units eligible for the grant
	Rate (% Cost acquisition)	Ceiling (DH/unit)	Rate (% Cost acquisition)	Ceiling (DH/unit)	
Fixed disc or share plow: - Less than 3 discs or shares - 3 discs or shares or more	30%	8,000 11,000	10%	3,000 4,000	2 units different by tractor
Reversible disc or share plow: - Less than 3 discs or shares - 3 discs or shares or more		11,000 14,000		4,000 5,000	
Light cultivators, classic harrows, vibrocultivators	30%	6,000	10%	2,000	3 units different by tractor
Mechanical cultivator for market gardening	30%	10,000	10%	3,000	

Materials	Universal diet/First aggregation slice		Second tranche of aggregation		Number of units eligible for the grant
	Rate (% Cost acquisition)	Ceiling (DH/unit)	Rate (% Cost acquisition)	Ceiling (DH/unit)	
Heavy cultivators of the culti-chisel type; chisel or any other similar material: - Less than 8 teeth - 8 teeth and more	30%	11,000 14,000	10%	4,000 5,000	
Disc, tine and roller harrow	30%	15,000	10%	5,000	1 unit per tractor
Rolls: - Width less than or equal to 3m - Width greater than 3m	30%	10,000 14,000	10%	3,000 5,000	1 unit per tractor
Hoes: - 3 rows or less - 4 or 5 rows - 6 rows and more	30%	12,000 20,000 30,000	10%	4,000 7,000 10,000	1 unit per tractor
Billonneur - Less than 4 discs or 4 shares - 4 discs or 4 shares and more	30%	6,000 9,000	10%	2,000 3,000	1 unit per tractor
Stuble plow of more than 10 discs with a diameter greater than or equal to 660 mm.	30%	13,000	10%	4,000	1 unit per tractor
Decompactors (Subsoilers): - Lightweight (45-60 cm) - Heavy (more than 60 cm)	30%	11,000 17,000	10%	4,000 6,000	1 unit per tractor

#### -Tractor-powered ground work and maintenance equipment:

Material	Universal diet/First aggregation slice		Second tranche of aggregation		Number of units eligible for the grant
	Rate (% Cost acquisition)	Ceiling (DH/unit)	Rate (% Cost acquisition)	Ceiling (DH/unit)	
Rotary cutter	30%	15,000	10%	5,000	1 unit per tractor
Agricultural shredders for plant debris	30%	20,000	10%	7,000	1 unit per tractor
Equipment type: Rotary harrow, Rotary tiller, rotavator, rotary cultivator, hydraulic cultivator	30%	30,000	10%	10,000	3 different units by tractor
Mechanical soil maintenance equipment on planting lines (intercrops type)	30%	36,000	10%	12,000	1 unit per tractor
Stationary date palm crusher for compost production	30%	27,000	10%	9,000	1 unit per tractor
Hydraulic grader blade	50%	30,000	10%	6,000	1 unit per tractor

- **Sowing equipment:**

Materials	<i><b>Universal diet/First aggregation slice</b></i>		<i><b>Second tranche of aggregation</b></i>		Number of units eligible for the grant
	<b>Rate (% Cost acquisition)</b>	<b>Ceiling (DH/unit)</b>	<b>Rate (% Cost acquisition)</b>	<b>Ceiling (DH/unit)</b>	
Single row seeder with one working width: - Less than 2.90 m - From 2.90 m to 3.90 m - Greater than 3.90 m	50%	30,000 35,000 45,000	10%	6,000 7,000 9,000	1 unit per tractor
Combined in-line seeder with a working width: - Less than 2.90 m - From 2.90 m to 3.90 m - Greater than 3.90 m		40,000 45,000 50,000		8,000 9,000 10,000	
Precision seeder: - 3 rows - 4 rows - At 6 rows and above	50%	30,000 50,000 90,000	10%	6,000 10,000 18,000	1 unit per tractor
Single or combined direct seeder with working width: - Less than 2 m - From 2 m to less than 3 m - Greater than or equal to 3 m	50%	50,000 90,000 100,000	10%	10,000 18,000 20,000	1 unit per tractor

- **Planting material:**

Materials	<i><b>Universal diet/First aggregation slice</b></i>		<i><b>Second tranche of aggregation</b></i>		Number of units eligible for the grant
	<b>Rate (% Cost acquisition)</b>	<b>Ceiling (DH/unit)</b>	<b>Rate (% Cost acquisition)</b>	<b>Ceiling (DH/unit)</b>	
Mechanical planter for market gardening: - From 2 to 3 rows: -Hopper less than 550 kg -Hopper of 550 kg and more  - Greater than or equal to 4 rows of a hopper of 1000 kg and more	50%	10,000 35,000  60,000	10%	2,000 7,000  12,000	1 unit per tractor
Mechanical transplanter for market gardening: - Manual feeding: - 2 rows - 3 rows - 4 rows or more - Automatic or semi-automatic feeding in 4 or more rows	50%	30,000 40,000 60,000  80,000	10%	6,000 8,000 12,000  16,000	1 unit per tractor
PTO-driven auger for planting (diameter of 30 cm and more)	50%	10,000			1 unit per tractor

- Fertilizer spreading equipment

Materials	<i>Universal diet/First aggregation slice</i>		<i>Second tranche of aggregation</i>		Number of units eligible for the grant
	Rate (% Cost acquisition)	Ceiling (DH/unit)	Rate (% Cost acquisition)	Ceiling (DH/unit)	
Equipment for adding and spreading mineral materials: - Single disc - Double discs	30%	2,000 12,000	10%	1,000 4,000	1 unit per tractor
Equipment for adding and spreading organic matter: - Less than or equal to 5 m <sup>3</sup> - Greater than 5 m <sup>3</sup>	30%	45,000 55,000	10%	15,000 18,000	1 unit per tractor

- Phytosanitary treatment equipment:

Type of materials	<i>Universal diet/First aggregation slice</i>		<i>Second tranche of aggregation</i>		Number of units eligible for the grant
	Rate (% Cost acquisition)	Ceiling (DH/unit)	Rate (% Cost acquisition)	Ceiling (DH/unit)	
Boom sprayer type projected jet equipment: - Carried on tractor - Towed by tractor	50%	18,000 42,000	10%	3,000 9,000	2 different units by tractor
Atomizer type air jet equipment: - Carried on tractor - Towed by tractor	50%	31,000 70,000	10%	6,000 14,000	
Powder machines for phytosanitary treatment	50%	10,000	10%	2,000	1 unit per tractor
Ultra Low Volume (UBV) type precision weeding equipment	50%	20,000	10%	4,000	1 unit per tractor
Other materials type treatment lance sprayer: - Doors - Tracts	50%	3,000 15,000			2 different units by tractor

### -Harvesting equipment:

Materials	Universal diet/First aggregation slice		Second tranche of aggregation		Number of units eligible for the grant
	Rate (% Cost acquisition)	Ceiling (DH/unit)	Rate (% Cost acquisition)	Ceiling (DH/unit)	
Conventional combine harvester (1) - With an engine with a power of less than 100 HP - With a motor with a power of 100 HP or more	20%	200,000 300,000	10%	100,000 150,000	- 1 unit for an area of 50 ha less than 200 ha - 2 units for an area of 200 ha to 400 ha - Beyond 400 ha: 1 unit for each 200 ha additional
Combine harvesters for rice harvesting equipped with caterpillar <sup>(1)</sup> (Power greater than 100 HP)	30%	312,000	10%	104,000	- 1 unit for an area of 20 ha less than 50 ha - 2 units for an area of 50 ha to 100 ha - Beyond 100 ha: 1 unit for each 100 ha additional
Fixed or traile d thresher	30%	21,000	10%	7,000	1 unit per tractor
Bundling equipment	30%	40,000	10%	13,000	1 unit per tractor
- Blade mower - Drum mower - Disc mower - Mower binder	30%	9,000 15,000 17,000 17,000	10%	3,000 5,000 6,000 6,000	2 units different by tractor
- Sun tedder rake - Spinner rake	30%	3,000 17,000	10%	1,000 6,000	1 unit per tractor

<sup>(1)</sup> The effective power of the engine expressed in CV is that fixed in the approval report for combine harvesters bearing approval by type or on an individual basis, issued by the competent services in accordance with the regulations in force. In the case where the engine power is expressed in Kw, the applicable conversion rate is as follows: 1kw=1.3596 HP.

### -Harvesting equipment:

Materials	Universal diet/First aggregation slice		Second tranche of aggregation		Number of units eligible for grant
	Rate (% Cost acquisition)	Ceiling (DH/unit)	Rate (% Cost acquisition)	Ceiling (DH/unit)	
Mechanical potato harvester - 1 row - 2 rows and more	30%	15,000 25,000	10%	5,000 8,000	1 unit per tractor
Hydraulic potato harvester - 1 row - 2 rows and more		25,000 35,000		8,000 12,000	
Self-propelled tomato harvester	30%	350,000	10%	117,000	1 unit for an area equal to or greater than 50 ha

Materials	<i>Universal diet/First aggregation slice</i>		<i>Second tranche of aggregation</i>		Number of units eligible for grant
	Rate (% Cost acquisition)	Ceiling (DH/unit)	Rate (% Cost acquisition)	Ceiling (DH/unit)	
Harvester for other market garden products	30%	25,000	10%	8,000	1 unit per tractor
Self-propelled sugar beet or sugar cane harvester	30%	720,000	10%	240,000	1 unit for an area equal to or greater than 10 ha
Sugar beet leaf remover	30%	70,000	10%	23,000	1 unit per tractor
Sugar beet swath harvester	30%	80,000	10%	27,000	1 unit per tractor
Sugar beet picker and loader	30%	180,000	10%	60,000	1 unit per tractor
Mechanical clamp vibrator for harvesting olives	30%	160,000	10%	53,000	1 unit for an area equal to or greater than 10 ha planted with olive trees
Straddler for olive harvest	30%	480,000	10%	160,000	- 1 unit for an area of 40 to 100 ha planted with olive trees - Beyond 100 ha: 1 unit for each 100 ha additional planted in olive trees
Manual vibrators for harvesting olives	40%	6,000			- 1 unit for less than 3 ha - 2 units of 3 to less than 6 ha - 3 units of 6 to less than 10 ha - 4 units for 10 ha or more

**-Other materials:**

Type of materials	Universal aid regime		
	Rate (%) of cost acquisition)	Ceiling of in DH/unit	Number of units eligible for grant
Crusher for dates	30	6,000	
Wind machines to combat frost (wind machines)	30	90,000	- 1 unit for an area less than or equal to 5 ha - 1 unit every 5 additional ha for an area beyond 5 ha
Pheromone capsules against Tuta-Absoluta, an insect pest of tomatoes and other nightshades (DH/ha/year)	60	4,800	
Adult female ceratitis attractant for mass trapping for citrus (DH/ha/year)	40	1,000	The aid ceiling is calculated per hectare and per year in compliance with the application dose approved for each product by the National Food Safety Office.

## **b. Creation of the financial aid application file:**

- Files submitted by farmers:

### **i.Request for agreement in principle:**

All agricultural equipment will be concerned by the request for agreement in principle with the exception of pheromone capsules against Tuta-Absoluta and adult female ceratitis attractants for mass trapping for citrus fruits.

Before purchasing agricultural equipment, the applicant submits a prior examination request file, in duplicate, to the one-stop shop. This file includes the following documents:

- A form requesting agreement in principle;
- Documents allowing the applicant to be identified:

#### *vs. For natural persons:*

- Copy of any document allowing the applicant to be identified;
- Copy of any document allowing his representative to be identified, if applicable, and copy of the document by virtue of which he is authorized to act on his behalf.

#### *d. For legal entities:*

- A copy of the statutes;
  - A copy of the minutes of the last general meeting;
  - Copy of any document allowing his representative to be identified, if applicable, and copy of the document by virtue of which he is authorized to act on his behalf.
- An aggregation certificate for the aggregator or applicant aggregators.

## **ii. Grant application:**

### > Agricultural equipment subject to the agreement in principle:

#### **a) Universal regime and 1<sup>time</sup>tranche for aggregation projects:**

After purchasing the equipment, the applicant must submit a subsidy application file to the same service. This file includes the following documents:

- A grant application form;
- Any document justifying the legal link of the applicant with the agricultural holding supporting the investment;
- Final invoices for the acquisition of equipment in new condition;
- Documents to ensure compliance with the standards required for each material subject to the grant request;
- A commitment from the applicant to keep the equipment, subject of the grant application, and to operate it for a minimum period of five (5) years from the date of submission of the grant application;
- An aggregation certificate for the aggregator and the aggregates in the case of equipment acquired as part of an aggregation project.
- Certificate of bank identity statement (RIB) of the applicant.

## **b) 2<sup>th</sup> tranche for aggregation projects:**

The request for the second tranche is admissible after at least one year from the submission of the request for the first tranche. The grant application file for the 2nd tranche consists of:

- A request for the granting of the second tranche of the subsidy;
- For aggregates: a discharge issued by the aggregator attesting to the delivery of the aggregate's production to the recovery unit and specifying the total quantity delivered;
- For the aggregator: a certificate issued by the Regional Directorate of Agriculture where the project is located, indicating that the said aggregator has honored its commitments in terms of assistance and technical supervision of the aggregates.

> **Agricultural equipment not subject to the agreement in principle:**

### **i. Grant application:**

After acquiring pheromone capsules or adult female ceratite attractants for mass trapping for citrus fruits, the applicant submits a subsidy application file, in duplicate, to the one-stop shop. This file includes the following documents:

- A form requesting agreement in principle;
- Documents allowing the applicant to be identified:

#### *e. For natural persons:*

- Copy of any document allowing the applicant to be identified;
- Copy of any document allowing his representative to be identified, if applicable, and copy of the document by virtue of which he is authorized to act on his behalf.

#### *f. For legal entities:*

- A copy of the statutes;
- A copy of the minutes of the last general meeting;
- Copy of any document allowing its representative to be identified, if applicable, and copy of the document under which he is authorized to act on his behalf.
- A grant request;
- Any document justifying the legal link of the applicant with the agricultural holding supporting the investment;
- Final invoices for the acquisition of equipment in new condition;
- Documents to ensure compliance with the standards required for each material subject to the grant request;
- A commitment from the applicant to keep the equipment, subject of the grant application, and to operate it for a minimum period of five (5) years from the date of submission of the grant application;
- Certificate of bank identity statement (RIB) of the applicant.

## - Files submitted by service companies:

*This aid is granted according to law 26-00 for:*

- For individuals: hold an engineering or technician diploma in the agricultural field;
- For partnerships: all partners must be engineers or technicians in the agricultural field;
- For directors of legal entities, other than partnerships: be engineers or technicians in the agricultural field.

### -Number of subsidized equipment:

#### - For self-propelled power equipment:

Material type	Number of units per surface area (Ha) to work per year	Maximum number units per request
<b>Tractor</b>	1 unit Every 500 Ha	<b>10</b>
<b>Combine harvester</b>	1 unit Every 400 Ha	<b>4</b>
<b>Straddler for olive harvest</b>	1 unit Every 300 Ha	<b>4</b>
<b>Self-propelled beet and sugar cane harvester</b>	1 unit Every 200 Ha	<b>4</b>
<b>Mechanical vibrator for harvesting olives</b>	1 unit Every 50 Ha	<b>4</b>

#### - For towed equipment:

The maximum number of units that can benefit from State financial assistance corresponds to that specified by the joint decree in force establishing the terms of State aid for the acquisition of agricultural equipment.

**This equipment must be acquired in new condition.**

### -Creation of the financial aid application file:

#### i. Request for prior approval and signature of the specifications:

Before purchasing agricultural equipment, service providers submit a prior approval request file, in triplicate, to the one-stop shop. This file includes the following documents:

- A request for prior approval;
- The original of the specifications duly signed and legalized by the competent authorities;
- A copy of the CIN for natural persons;
- A copy of the statutes and legal documents designating the persons authorized to act on their behalf, for legal entities;
- Copies of tractor registration documents available to the service provider for grant requests relating to the acquisition of towed equipment;
- A copy of the engineering or technician diploma in the agricultural field for individuals;
- Copies of engineering or technician diplomas in the agricultural field for all partners of partnerships;
- Copies of the commercial register for companies;

- o For legal entities other than partnerships:
  - A copy of the engineering or technician diploma in the agricultural field for directors of legal companies other than partnerships;
  - A copy of the minutes of the General Meeting appointing the director of the legal company other than partnerships, or of the employment contract justifying his appointment;
- A certificate of staff affiliation to the social security and retirement systems.
- A company presentation sheet indicating the technical capacities and human resources mobilized for the benefit of the project;
- A detailed business plan over a period of five (5) years, including the following minimum information:
  - Projected annual acquisitions and investments as well as their method of financing;
  - The targeted provinces and regions;
  - The different types of services to be provided;
  - The forecast area and number of farmers targeted, broken down by province and region;
  - The forecast price by type of service;
  - Annual turnover forecasts;
  - Forecasts of financial profitability of the project.

## **ii. Grant application:**

After purchasing the agricultural equipment, the applicant submits a subsidy application file, in duplicate, to the one-stop shop. This file includes the following documents:

- A grant request;
- The detailed original final invoices, bearing the technical characteristics of the equipment (serial number, type, power, brand, model, etc.);
- A copy of the registration document or the receipt for submission of the registration file for the agricultural tractor, the combine harvester and the straddle for the olive harvest;
- An act of commitment from the applicant to keep the equipment acquired for at least five (5) years from the date of the completion report, and to use it under conditions ensuring its full use, its greatest efficiency and its good maintenance;
- The applicant's RIB certificate.

## 2. ACQUISITION OF LIVESTOCK EQUIPMENT:

- Joint order of the Minister of Agriculture and Maritime Fisheries, the Minister of Economy and Finance and the Minister of the Interior No. 3380-15 of 8 Moharrem 1437 (October 22, 2015) setting out the terms of the aid of the State with a view to intensifying animal production. (BO n° 6432 01/21/2016).
- Joint Order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, the Minister of the Interior and the Minister of the Economy, Finance and Administration Reform No. 2411 -19 of 29 Safar 1441 (October 28, 2019) setting the amounts, rates, ceilings and terms of granting subsidies granted to agricultural aggregation projects. (BO n°6992 (fr) of June 3, 2021)

**has. Rates, ceilings and standards:**

Materials	Universal diet/First aggregation slice		Second tranche of aggregation		<b>Number of units eligible for the subsidy</b>
	Rate (% Cost acquisition)	Ceiling (DH/unit)	Rate (% Cost acquisition)	Ceiling (DH/unit)	
Crusher For livestock feed	30%	6,000	10%	2,000	1 unit for a farm of less than 20 head of cattle and/or camels or less than 80 head of sheep and/or goats
					2 units for a farm of 20 head or more of cattle and/or camels or 80 head or more of sheep and/or goats
Blender of food of cattle	30%	15,000	10%	5,000	1 unit for a farm of less than 20 head of cattle and/or camels or less than 80 head of sheep and/or goats
					2 units for a farm of 20 head or more of cattle and/or camels or 80 head or more of sheep and/or goats
Food Unit livestock annexed to the farm agricultural	30%	60,000	10%	20,000	1 unit for a farm or breeder cooperative of more than 50 head of cattle and/or camels or more than 200 head of sheep and/or goats
Flail forage harvester	30%	13,500	10%	4,500	1 unit for a farm of more than 10 head of cattle and/or camels or more than 50 head of sheep and/or goats
Corn forage harvester with 1 single nozzle	30%	16,500	10%	5,500	1 unit for a farm of more than 10 head of cattle and/or camels or more than 50 head of sheep and/or goats
Corn forage harvester with 2 nozzles	30%	42,000	10%	14,000	1 unit for a farm of more than 20 head of cattle and/or camels or more than 100 head of sheep and/or goats
Corn forage harvester self-propelled	30%	300,000	10%	100,000	1 unit for a farm of more than 200 head of cattle and/or camels or more than 1,000 head of sheep and/or goats or for a cooperative whose number operated by its members exceeds 500 head of cattle and/or camels or 1,000 heads of sheep and/or goats

Materials	Universal diet/First aggregation slice		Second tranche of aggregation		Number of units eligible for the subsidy
	Rate (% Cost acquisition)	Ceiling (DH/unit)	Rate (% Cost acquisition)	Ceiling (DH/unit)	
Deciler mixer distributer	30%	105,000	10%	35,000	1 unit for a farm of more than 50 head of cattle and/or camels or more than 500 head of sheep and/or goats or for a cooperative of more than 100 head of cattle and/or camels or more than 1,000 heads of sheep and/or goats
Container of conservation of the seeds	30%	6,000	10%	2,000	1 unit for a farm of more than 50 head of cattle and/or camels or cooperative or other breeder groups whose members' livestock number exceeds 500 head
Insemination kit artificial	30%	2,000	10%	667	1 unit for a farm of more than 50 head of cattle and/or camels or cooperative or other breeder groups whose members' livestock number exceeds 500 head
Calving machine	30%	2,000	10%	667	1 unit for a farm of more than 50 head of cattle and/or camels.
Material of misting	30%	18,000	10%	6,000	1 unit for a building of at least 500 m <sup>2</sup>
System pad cooling For THE units breeding except breeding of chickens layers in cage	30%	30,000	10%	10,000	1 unit for a building of at least 500 m <sup>2</sup>
System pad cooling For THE units breeding of chickens layers in cage	30%	120,000	10%	40,000	1 unit for a building of at least 500 m <sup>2</sup>
Populated hive	30%	300	10%	100	-
Extractor	30%	3,000	10%	1,000	1 unit for a farm with at least 50 populated hives
Ripener	30%	3,000	10%	1,000	1 unit for a farm with at least 50 populated hives
Honey filter	30%	1,800	10%	600	1 unit for a farm with at least 50 populated hives
Wax waffle maker	30%	15,000	10%	5,000	1 unit for a farm with at least 50 populated hives

Materials	Universal diet/First aggregation slice		Second tranche of aggregation		Number of units eligible for the subsidy
	Rate (% Cost acquisition)	Ceiling (DH/unit)	Rate (% Cost acquisition)	Ceiling (DH/unit)	
Unit of wax making	30%	210,000	10%	70,000	1 unit per farm of less than 1000 populated hives and one additional unit for each 1,000 additional populated hives
Milking machine fixed: bathroom milks 2x4 stations	30%	60,000	10%	20,000	1 unit for a farm of less than 50 dairy cows
Milking machine fixed: bathroom processes 10 positions or more <sup>(1)</sup>	30%	7,500 dirhams by post treaty	10%	2,500 dirhams per job of treaty	2 units for a farm of 50 dairy cows or more.
Unit mobile of treaty	30%	3,000	10%	1,000	1 unit for a farm of less than 10 dairy cows
Milk container installed in exploitation	30%	15,000	10%	5,000	1 unit for a farm of more than 30 dairy cows
Equipment And facility of unit of milk valorization of goat including a tank of reception And of storage of milk, of material milk analysis, a pasteurizer, of material of fermentation, of curdling, dripping And room cold	30%	100,000			1 Unit for a farm of more than 100 dairy goats

(1) The total ceiling per farm of more than 50 dairy cows is set at 360,000 DH.

(2) The mobile milking unit must meet functionality standards defined by the competent services of the Ministry of Agriculture, Maritime Fisheries, Rural Development and Water and Forests.

The renewal of forage harvesters, decilers, milking machines, wax manufacturing units as well as the equipment and installation of goat milk processing units can only benefit from State aid. once every 10 years. For forage harvesters, each applicant can only benefit from one of the categories mentioned above.

## **b. Creation of the financial aid application file:**

### **i. Request for agreement in principle:**

Before acquiring the breeding equipment, the applicant submits a request for agreement in principle, in duplicate, to the Single Window. This file includes the following documents:

- A request for agreement in principle;
- A copy of the CIN for natural persons or a copy of the statutes and legal documents designating the persons authorized to act on their behalf, for legal persons;

For any request exceeding 100 hives (cumulatively) per beekeeper, the technical service of the DPA or the ORMVA must issue a certificate justifying the beekeeper's capabilities by the existence of a hive storage workshop, technical equipment and the milleraies equipment necessary for the valorization of honey production.

### **ii. Subsidy request:**

#### **a) 1<sup>st</sup>slice :**

After purchasing the breeding equipment, the applicant submits a subsidy application file, in duplicate, to the Single Window. This file includes the following documents:

- The original certificate of the agreement in principle;
- A grant request;
- A certificate of conformity of the breeding equipment;
- The original detailed final invoices for the purchase of breeding equipment;
- An act of commitment from the applicant to keep the acquired equipment, for at least five (5) years, from the date of the report of completion and to use it under conditions ensuring its full use, its greatest efficiency and its good maintenance;
- Copy of an aggregation certificate for the aggregator and the aggregators.
- The applicant's RIB certificate.

#### **b) 2<sup>nd</sup>slice :**

The request for the second tranche is admissible after at least one year from the submission of the request for the first tranche. The grant application file for the 2nd tranche consists of:

- A request for the granting of the second tranche of the subsidy;
- For aggregates: a discharge issued by the aggregator attesting to the delivery of the aggregate's production to the recovery unit and specifying the total quantity delivered;
- For the aggregator: a certificate issued by the Regional Directorate of Agriculture where the project is located, indicating that the said aggregator has honored its commitments in terms of assistance and technical supervision of the aggregates.

### 3. CONSTRUCTION OF LIVESTOCK BUILDINGS:

- Joint order of the Minister of Agriculture and Maritime Fisheries, the Minister of Economy and Finance and the Minister of the Interior No. 3380-15 of 8 Moharrem 1437 (October 22, 2015) setting out the terms of the aid of the State with a view to intensifying animal production. (BO n° 6432 01/21/2016).

has. Rates, ceilings and standards:

Type of building	Subsidy rate in %	Grant ceiling (DH/m <sup>2</sup> surface area)
Modern stable:	25%	200
- Covered barn for tie stalling - Free-stall barn		50
Traditional stable		75
Sheepfold and goat farm:		
• Modern		80
• Traditional		60
Shelters for camels		100

- Livestock buildings are built for exclusive use to house cattle, sheep and goat breeding animals according to the characteristics and standard plans approved by the services of the Ministry of Agriculture, Maritime Fisheries, Rural Development and of Water and Forests.

- The area used to calculate the subsidy includes the areas used as shelter for animals, additional areas such as feed troughs, feeding and service corridors, and boxes for young livestock. For free-stall barns, the area concerned is that delimited by the perimeter of the fences.

#### b. Creation of the financial aid application file:

##### i. Request for prior approval:

Before the construction of the livestock building, the applicant submits a prior examination request file, in duplicate, to the Single Window. This file includes the following documents:

- A request for prior approval;
- A copy of the CIN for natural persons;
- A copy of the statutes and legal documents designating the persons authorized to act on their behalf, for legal entities;
- A copy of the construction plan;
- Administrative documents justifying the legal link of the applicant with the property supporting the investment.

##### ii. Grant application:

After the construction of the livestock building, the applicant submits a subsidy application file in duplicate to the One Stop Shop. This file includes the following documents:

- The certificate of prior approval;

- A grant request;
- A construction contract concluded between the DPA or ORMVA and the applicant;
- The original detailed final construction invoices issued by the contractor or an estimated construction estimate issued by the competent department of the DPA or ORMVA;
- The applicant's RIB certificate.

#### **4. ACQUISITION AND INSTALLATION OF GREENHOUSES:**

- Joint order of the Minister of Agriculture and Maritime Fisheries, Rural Development and Water and Forests of the Minister of the Interior and the Minister of the Economy and Finance and Administration Reform n°1927- 20 of 29 kiaada 1441 (July 21, 2021) setting the subsidy rates and the ceilings for the components of greenhouses eligible for State aid for the acquisition and installation of greenhouses intended for agricultural production . (BO (AR) n° 6958 of February 4, 2021)

**has. Rates and ceilings:**

Greenhouse components	Subsidy rate (in %)	Ceiling of the subsidy in (DH/m <sup>2</sup> covered)
Metal frame	25%	27
Wooden frame	25%	12
Reinforcement of metal tunnels	25%	9
Plastic and tie wire	25%	3

#### **b. Creation of the financial aid application file:**

##### **i.Request for prior approval:**

Before the acquisition and installation of greenhouses, the applicant submits a prior approval request file, in two copies, to the one-stop shop. This file includes the following documents:

- A request for prior approval;
- Documents and pieces allowing the applicant to be identified:
  - a) For natural persons:
    - Any document allowing the applicant to be identified (CNIE, Passport, etc.)
    - Any document allowing the identification of its representative, if applicable;
    - A copy of the document under which the representative is authorized to act on behalf of the applicant.
  - b) For legal entities:
    - a copy of the statutes;
    - a copy of the minutes of the last general meeting;
    - a copy of the documents designating the person authorized to act on their behalf;
    - Any document identifying the person authorized to act on their behalf.
- Any document justifying the legal link of the applicant with the land supporting the investment;
- A project sheet specifying in particular the surface area of greenhouses to be installed, the crop(s) to be installed, the type of greenhouses to be installed and the estimated cost of the project.
- A plan on an appropriate scale, indicating the location of the operation and its limits as well as the limits of the plots concerned by the installation of the new greenhouses with precision of their geographical coordinates.

## **ii. Grant application:**

After completing the project, the applicant submits a grant application file, in duplicate, to the one-stop shop. This file includes the following documents:

- A request for the established grant;
- The original detailed final invoices for the acquisition and installation of greenhouses;
- A commitment from the applicant to maintain the investment subject of the subsidy request and to exploit and enhance it exclusively for eligible productions for a minimum period of seven (07) years from the date of submission of the grant request.
- Certificate of the applicant's RIB.

## **5. NETS TO PROTECT MARKETING CROPS UNDER GREENHOUSES AGAINST INSECTS:**

- Joint order of the Minister of Agriculture and Maritime Fisheries, the Minister of Economy and Finance and the Minister of the Interior No. 364-10 of 10 Safar 1431 (January 26, 2010) taken for application of decree no. 2-01-1424 of 27 hija 1422 (March 12, 2002) providing assistance for the use of nets to protect market garden crops in greenhouses against insects. (BO n° 5818 of March 4, 2010)

**has. Rates and ceilings:**

<b>Object</b>	<b>Subsidy rate (% of cost)</b>	<b>Ceiling of the subsidy in DH/ha</b>
Use of protective nets of the crops market gardeners below greenhouses against insects	35%	12,000

### **b. Creation of the financial aid application file:**

#### **i. Grant application:**

After the installation of nets to protect market garden crops in greenhouses against insects, the applicant submits a subsidy application file, in duplicate, to the one-stop shop. This file includes the following documents:

- A grant request;
- A copy of the CIN for natural persons;
- A copy of the statutes and legal documents designating the persons authorized to act on their behalf, for legal entities;
- Administrative documents justifying the legal link of the applicant with the property supporting the investment;
- The original detailed final invoices for the acquisition of the nets, in the name of the producer, showing the dimensions of the mesh of the net, the quantity of the nets, the unit price and the total acquisition amount;
- An act of commitment from the applicant to retain the investment, for at least three (3) years, from the date of the completion report, and to use it under conditions ensuring its full use, its greatest efficiency and its good maintenance;
- In the event of grouped supplies from cooperative members: the producers concerned must present a copy of the overall invoice drawn up in the name of the cooperative, supplemented by an individual delivery note issued by the president of the cooperative and signed by the beneficiary;
- The applicant's RIB certificate.

## **6. PROTECTIVE NETS AGAINST HAIL:**

- Joint order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, the Minister of the Economy, Finance and Administration Reform, the Minister of the Interior and n° 1232-21 of 4 hija 1442 (July 15, 2021) setting the rate of State financial assistance for the acquisition and installation of protective nets for fruit plantations against hail and the production areas concerned. (BO n° 7048 of December 16, 2021)

**has. Rates and ceilings:**

Object	Subsidy rate (% Cost)	Ceiling of the subsidy in DH/ha
Use of nets to protect fruit plantations against hail (*)	40%	50,000

(\*) This aid concerns the following provinces or prefectures: Boulemane, Fez, Sefrou, Meknes, El Hajeb, Ifrane, Midelt, Khénifra, Khémisset, Kenitra, Taza, Taounate, Al Hoceima, Chichaoua, Haouz, El Kelâa-des-Sraghna, Marrakech, Beni Mellal, Azilal, Equi Ben Saleh, Oujda, Berkane, Nador, Chefchaouen, Tétouan, Ouarzazate, Errachidia, Moulay Yacoub, Guercif, Taourirt, Jerada, Driouch, Ouazzane, Sidi Kacem, Rhamna and Tinghir.

### **b. Creation of the financial aid application file:**

#### **i. Request for prior approval:**

Before carrying out its project to install protective nets for fruit plantations against hail, the applicant submits a prior approval request file to the one-stop shop. This file includes the following documents:

- A prior approval form;
- Documents allowing the applicant to be identified:

#### *g. For natural persons:*

- Copy of the applicant's identification document;
- Copy of the mandate and copy of the agent's identification document, if applicable;

#### *h. For legal entities:*

- A copy of the statutes or the extract from the commercial register or the register of cooperatives, if applicable;
  - A copy of the minutes of the last general meeting;
  - A copy of the document designating the legal representative as well as a copy of his identification document;
- Any legal document justifying the applicant's link with the land subject to the project.
  - A technical file which includes:

has. A project sheet specifying in particular the location of the plot, the surface area of the plantations to be covered, the existing fruit species or to be planted, the technical characteristics of the equipment to be installed, the quantities and unit prices of the main components as well as the estimated total cost of the project. project ;

#### **b. Estimated quotes or pro-forma invoice;**

- vs. Technical sheets or catalogs, equipment to be installed or any equivalent document specifying the technical characteristics of said equipment;
- d. A detailed topographical plan at an appropriate scale, indicating the location, limits and geographical coordinates of the farm, the plots concerned by the installation of protective nets and the plots already equipped with nets where applicable, the arrangement of posts, cables, anchors, and the net to be installed and their dimensions according to the aforementioned project sheet.

**ii - Grant request:**

After completing their project, the applicant submits a grant application file to the one-stop shop. This file includes the following documents:

1. A grant request;
2. The original detailed final acquisition and installation invoices specifying the technical characteristics of the equipment to be installed;
3. A commitment from the applicant to maintain the project subject of the grant request and exploit and enhance it for a minimum period of seven (7) years.
4. Certificate of bank identity statement (RIB) of the applicant.

## FARM EQUIPMENT

### 1- Stages of making investments and submitting files:

### 2- Deadlines for making investments and submitting grant application files:

Purpose or operation	Universal diet/1st aggregation slice		2nd aggregation tranche
	Deadline for submitting a file	Deadline for submitting a file	
Acquisition of agricultural equipment Acquisition of livestock equipment	12 months	From the date of the agreement of principle	At least 12 months after submission of the grant application file of the first tranche and after delivery from production
Livestock buildings	24 months	From the date of approval prior	
Acquisition and installation of anti-hail nets	12 months		
Acquisition of agricultural equipment by agricultural mechanization service companies	12 months	From the date acquisition	
Acquisition and installation of greenhouses	12 months		
protective nets for vegetable crops in greenhouses	12 months	From the date acquisition	
Acquisition of pheromone capsules or citrus ceratitis attractants	6 months		

*Additional deadlines may be granted if the request is made by the applicant before the expiration of the initial deadline.*

**All files are submitted to the Single Window against dated and signed deposit receipts.**

**Request more information from**

# UNITÉS DE VALORISATION

## **AGRICULTURAL PRODUCT VALORIZATION UNITS:**

- Joint order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, the Minister of Economy and Finance and the Minister of the Interior, No. 3285.17 of 16 Rabii I 1439 (5 December 2017) setting the amounts, conditions and terms of granting State financial assistance for units for the valorization of fresh agricultural products and their by-products. (BO N° 6652 of March 1, 2018)

### **1- VALORIZATION UNITS FOR FRESH AGRICULTURAL PRODUCTS OF PLANT ORIGIN AND THEIR BY-PRODUCTS:**

- Rates, ceilings and standards:

Unit type	Rate of grant (in %)	Grant ceiling (in DH)
Conditioning units for seed production	10%	1.5 million
Grain storage units	10%	3,200,000
Citrus packaging units	30 %	6,000,000 For a production capacity less than 5,000 T/year 14,000,000 For a capacity to production greater than or equal to 5,000 T/year less than 10,000 T/year 21,000,000 for one production capacity greater than or equal to 10,000 T/year.
Packaging units for market garden products, tree products and any other fresh fruit (except citrus fruits)	30 %	4,000,000 for production capacity less than 4,000 T/year 10,000,000 for a production capacity of 4,000 T/year to less than 10,000 T/year 15,000,000 for production capacity greater than or equal to 10,000 T/year
Cold storage units for agricultural products other than dates	25%	3,000,000
cold storage units for dates.	25%	800 000
olive crushing units	10%	2,000,000
Modern olive oil bottling units	10%	1,000,000

<b>Unit type</b>	<b>Rate of grant (in %)</b>	<b>Grant ceiling (in DH)</b>
Equipment for bottling olive oil	10%	500 00
Olive pomace processing and valorization units	10%	1.5 million
Plant product valorization units by: - transformation and/or - conservation and/or - freezing-deep-freezing and/or - drying and/or - crushing and/or - the extraction of essential oils and oils (other than olive oil), including the packaging of products resulting from these valorization operations above indicated	20%	2,000,000

## **2- VALORIZATION UNITS FOR FRESH AGRICULTURAL PRODUCTS OF PLANT ORIGIN AND THEIR BY-PRODUCTS:**

- Rates, ceilings and standards:

<b>Unit type</b>	<b>Rate of grant (in %)</b>	<b>Ceiling of the subsidy (in DH)</b>
Fresh milk recovery units for the manufacture of cheese and dairy derivatives	30 %	3,000,000
Industrial red meat slaughterhouses with cutting room	30 %	18,000,000
Red meat cutting units	30 %	4,500,000
Red meat processing units	30 %	4,500,000
Equipment for red meat processing units	30 %	600,000
Industrial poultry slaughterhouses with cutting room	30 %	12,000,000
Poultry meat cutting units with or without processing, including packaging	10%	3,000,000
Egg packaging units	10%	600,000
Egg processing units intended for consumption	10%	2,200,000
Poultry droppings drying units	30 %	600,000
Beekeeping product valorization units	10%	500,000

- **Creation of the financial aid application file:**

- i. **Request for prior approval:**

Before carrying out their project, the applicant submits an examination request file, in duplicate, to the Single Window. This file includes the following documents:

- A request for prior approval;
- Identification documents of the applicant (natural persons or legal entities);
- A document justifying the exercise of an agricultural activity;
- A document justifying the legal link of the applicant with the land supporting the investment;
- A detailed technical file specifying the feasibility and profitability of the investment project (minimum IRR of 6%). This file must be accompanied:
  - o Quotes or pro-forma invoices for the planned constructions, equipment and materials;
  - o Plans of the site for implementation and implementation of the project as approved by the competent authority.
- A copy of the authorization to carry out the investment project concerned issued by the competent authorities or the authorization to carry out the activity for existing units.

- ii. **Grant application:**

After completing the project, the applicant submits a subsidy application file to the same One Stop Shop. This file includes the following documents:

- A grant request;
- The detailed original final invoices;
- A copy of the health authorization or approval issued by ONSSA;
- The applicant's commitment to respect the conditions for granting aid (8 years);
- The applicant's commitment to respect the laws in force relating to social and environmental aspects;
- The applicant's RIB certificate.

## **MILK COLLECTION CENTERS FOR DAIRY COOPERATIVES:**

- Joint order of the Minister of Agriculture and Maritime Fisheries, the Minister of Economy and Finance and the Minister of the Interior No. 3380-15 of 8 Moharram 1437 (October 22, 2015) setting out the terms of the aid of the State with a view to intensifying animal production. (BO (Ar) n° 6432 of January 21, 2016)

has. Rates and ceilings:

Operation	Rate grant for cooperatives (%)	Grant ceiling (Calculation basis)
Construction of the milk collection center	30 %	60,000
Milk tank equipment		39,000
Equipping with a generator or electrification of the milk collection center		60,000

(\*) This subsidy concerns the following areas:

- The Wilayas of: Rabat Salé, Greater Casablanca, Fez and Meknes.
- The provinces of: Kenitra, El Jadida, Settat, Benslimane, Khemisset and Sidi Kacem.
- The circles of: Ahfir (Wilaya of Oujda), Biougra (Wilaya of Agadir), Marrakech Suburb (Wilaya of Marrakech), Ksar El kébir (Wilaya of Tétouan), Louta (Province of Nador), Taroudant (Province of Taroudant), Lâataouia (Province of El kelaâ des Sraghna), Béni Moussa and Fkikh Ben Saleh (Province of Béni Mellal) and Afourer (Province of Azilal).
- For the rest of the national territory, the cost of building and equipping milk collection centers can be covered in full by the State.

### **b. Creation of the financial aid application file:**

> Construction of newly created milk collection centers:

#### **i. Request for prior approval:**

Before the construction of the milk collection center, the applicant submits a prior examination request file, in duplicate, to the one-stop shop. This file includes the following documents:

- A request for prior approval;
- Identification documents of the cooperative (copy of the statutes and minutes of the last general meeting);
- A document justifying the legal link of the applicant with the land supporting the investment;
- A project presentation note relating the feasibility and justification of the opportunity of the project at the local level;
- Construction plan of the milk collection center approved by the competent department of the DPA or ORMVA.

## **ii. Grant application:**

After the construction of the milk collection center, the applicant submits a subsidy application file in duplicate to the one-stop shop. This file includes the following documents:

- A grant request;
- The original detailed final construction invoices issued by the contractor or an estimate issued by the competent department of the DPA or ORMVA;
- The cooperative's commitment to respect the conditions for granting aid;
- Health approval issued by ONSSA;
- The cooperative's RIB certificate.

### **> Equipment for newly created milk collection centers:**

#### **i. Request for prior approval:**

Before equipping the center, the applicant submits a request for preliminary examination of the project, in duplicate, to the one-stop shop. This file includes the following documents:

- A request for prior approval;
- The identification documents of the cooperative (copy of the statutes and minutes of the last general meeting).

#### **b. Grant application:**

After equipping the center, the applicant submits a subsidy application file in duplicate to the one-stop shop. This file includes the following documents:

- Certificate of prior approval;
- A grant request;
- The original detailed final invoices for the purchase of equipment and/or electrification of the center;
- The commitment of the president of the cooperative to respect the conditions for granting aid duly signed;
- Health approval issued by ONSSA;
- Certificate of the applicant's RIB.

### **> Renewal of equipment at milk collection centers:**

#### **i. Request for prior approval:**

Before renewing the equipment, the applicant submits a request for preliminary examination of the project, in duplicate, to the one-stop shop. This file includes the following documents:

- A request for prior approval;
- A copy of the statutes of the cooperative;
- A project presentation note relating the feasibility and justifying the advisability of the project to renew the milk collection center equipment.

## **ii. Grant application:**

After renewal, the applicant submits a subsidy application file, in duplicate, to the one-stop shop. This file includes the following documents:

- Certificate of prior approval;
- A grant request;
- The original detailed final invoices for the purchase of equipment and/or electrification of the center;
- The commitment of the president of the cooperative to respect the conditions for granting the aid duly signed;
- Health approval issued by ONSSA;
- Certificate of the applicant's RIB.

## VALUATION UNITS

### 1- Stages of making investments and submitting files:

### 2- Deadlines for making investments and submitting application files for grant :

Purpose or operation	Deadline for submitting a file	
Valuation units	24 months	From the date of prior approval
Milk collection centers	12 months	

*Additional deadlines may be granted if the request is made by the applicant before the expiration of the initial deadline.*

**All files are submitted to the one-stop shop against deposit receipts.**

**Request more information from:**

- One-stop shops from the Provincial Directorates of Agriculture or the Regional Agricultural Development Offices
- MAPMDREF/FDA website:[www.agriculture.gov.ma/fda](http://www.agriculture.gov.ma/fda)

# PROMOTION ET DIVERSIFICATION DES EXPORTATIONS

## - PROMOTION AND DIVERSIFICATION OF EXPORTS

### 1- PROMOTION AND DIVERSIFICATION OF PRODUCT EXPORTS

#### AGRICULTURAL PLANT ORIGIN:

- Joint order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, the Minister of the Economy, Finance and Administration Reform and the Minister of the Interior No. 382 -20 of 1st Jounada II 1441 (January 27, 2020) amending the joint order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, the Minister of the Economy and Finance and the Minister of the Interior No. 3284-17 of 16 Rabii I 1439 (December 5, 2017) establishing the terms and conditions for granting State financial assistance for the promotion and diversification of exports of agricultural products. (BO n° 6862 of March 5, 2020).
- Joint Order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, the Minister of the Economy and Finance and the Minister of the Interior No. 3284-17 16 Rabii I 1439 (5 December 2017) setting the conditions and modalities for granting State financial assistance for the promotion and diversification of exports of agricultural products. (BO n° 6670 (Fr) of May 3, 2018)

has. Rates, ceilings and standards:

#### i. Exports of fresh plant products:

Operations	Destination	Amount of aid in Dirhams/Tonne	Quantities eligible for ugly
EXPORTS CITRUS	Ukraine, China, and Country of Arabian Gulf	500	500 DH/T for the quantities exported, from September 1, 2017, in excess of the quantities exported during the reference campaign from September 1, 2000 to August 31, 2001.
	Destinations other than Russia, Ukraine, China, the Country of Arabian Gulf and the States members of the EU and Kingdom United	500	500 DH/T for quantities exported in excess of the quantities exported during the reference campaign running from September 1, 2000 to August 31, 2001
EXPORTS FROM THE TOMATO	750 DH/T for quantities exported outside the European Union and outside Great Britain in excess of the quantities exported during the reference campaign running from September 1, 2007 to August 31, 2008		
EXPORTS FROM THE STRAWBERRY	500 DH/T for all quantities exported outside the European Union and outside Great Britain		

## ii. Olive oil exports:

- Joint Order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, the Minister of the Economy and Finance and the Minister of the Interior No. 3284-17 16 Rabii I 1439 (5 December 2017) setting the conditions and modalities for granting State financial assistance for the promotion and diversification of exports of agricultural products. (BO n° 6670 (Fr) of May 3, 2018).

Category	Amount of aid in dirhams/tonne
All categories except lamp oil	2,000

### b. Creation of the financial aid application file:

After completion of the export, the applicant submits a subsidy application file, against receipt, to the competent department of the Provincial Directorate of Agriculture (DPA) or the Regional Agricultural Development Office (ORMVA), in whose jurisdiction the recovery unit concerned by the export is located. This file includes the following documents:

- The grant request;
- Identification documents of the applicant (natural persons or legal entities);
- Documents relating to the applicant:
  - For natural persons:
    - Copy of any document allowing the applicant to be identified;
    - Copy of any document allowing his representative to be identified, if applicable, and copy of the document by virtue of which he is authorized to act on his behalf.
  - For legal entities:
    - A copy of the statutes;
    - A copy of the minutes of the last general meeting;
    - A copy of the documents designating the person authorized to act on their behalf;
    - Copy of any document identifying the person authorized to act on their behalf;
- Copies of certificates and documents justifying the exports carried out;
- Copy of the certificate of origin justifying that they originate from Morocco issued by the competent authorities according to the legislation and regulations in force;
- Certificate of the applicant's RIB.

## **2- PROMOTION AND DIVERSIFICATION OF PRODUCT EXPORTS**

### **AGRICULTURAL ANIMAL ORIGIN:**

- **Joint Order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, the Minister of the Economy and Finance and the Minister of the Interior No. 3284-17 16 Rabii I 1439 (5 December 2017) setting the conditions and modalities for granting State financial assistance for the promotion and diversification of exports of agricultural products. (BO n° 6670 (Fr) of May 3, 2018)**

**has. Rates, ceilings and standards:**

<b>Products concerned</b>	<b>Amount of aid</b>
hatching eggs	1 dirham per kilogram exported
day old chicks	

### **b. Creation of the financial aid application file:**

After completion of the export, the applicant submits a subsidy application file, against receipt, to the competent department of the Provincial Directorate of Agriculture (DPA) or the Regional Agricultural Development Office (ORMVA), in whose jurisdiction the recovery unit concerned by the export is located. This file includes the following documents:

- The grant request;
- Documents relating to the applicant:
  - For natural persons:
    - Copy of any document allowing the applicant to be identified;
    - Copy of any document allowing his representative to be identified, if applicable, and copy of the document by virtue of which he is authorized to act on his behalf.
  - For legal entities:
    - A copy of the statutes;
    - A copy of the minutes of the last general meeting;
    - A copy of the documents designating the person authorized to act on their behalf;
    - Copy of any document identifying the person authorized to act on their behalf;
- Identification documents of the applicant (natural persons or legal entities);
- Copies of certificates and documents justifying the exports carried out;
- Copy of breeding approval or health certificate issued by ONSSA.
- Export DUMs duly endorsed by the customs services.
- Copies of transport letters depending on the mode of export (air, land or sea);
- Certificate of the applicant's RIB.

### **3- PROMOTION OF EXPORTS OF FRESH FRUITS AND VEGETABLES, FLOWERS CUTS AND ORNAMENTAL PLANTS BY AIR:**

- *Joint order of the Minister of Agriculture and Agricultural Development and the Minister of Finance and Foreign Investment No. 1588-96 of 19 Rabii II 1417 (August 5, 1996) modifying Order No. 499-90 of 6 Ramadan 1410 (April 2, 1990) taken to implement Decree No. 2-89-31 of 18 Jumada I 1410 (December 18, 1989) providing assistance for the promotion of exports of agricultural products by air. BO n° 4414 of September 19, 1996)*

**has. Rates, ceilings and standards:**

<b>Operations</b>	<b>Amount of aid and conditions allowing benefit from help</b>
Promotion of exports, by air, of fruits, vegetables, flowers cut and ornamental plants	1 DH/Kg for exports made to Western Europe, with the exception of Scandinavia, for the periods from 1 <sup>er</sup> October to November 30 and from 1 <sup>er</sup> March to June 30  4.5 DH/Kg from 1 <sup>er</sup> October to September 30 for exports made to Scandinavia, North America, the Middle East, Japan, the former Soviet Union and Eastern Europe with the exception of tomato exports made on Canada

#### **b. Creation of the financial aid application file:**

##### **i. Promotion of fruit and vegetable exports by air:**

This subsidy is paid to air carriers who have deducted it from the air freight rate or directly to exporters who have paid the full price to air carriers for the transport of their agricultural products.

###### **oFiles submitted by the air carrier:**

These files are submitted, in duplicate, to the Single Window of the Provincial Directorate of Agriculture of Casablanca.

- A grant request;
- A copy of the cargo manifest established by the air carrier and endorsed by the customs services;
- A summary invoice for air waybills (LTA) signed by the air freight director or his agent;
- A copy of the air waybill;
- Certificate of the applicant's RIB.

###### **oFiles submitted by the exporter:**

Subsidy application files are submitted, in duplicate, by the exporter to the Single Window to which his address is located.

- A grant request;
- A copy of the CIN for natural persons;
- A copy of the statutes and legal documents designating the persons authorized to act on their behalf, for legal entities;

- An export certificate established by the EACCE;
- Copies of air waybills;
- A copy of the export DUMs provided by the customs services;
- The applicant's RIB certificate.

**Only files carried out with companies other than Royal Air Maroc are eligible.**

**ii. Promotion of exports of cut flowers and ornamental plants by air:**

This subsidy is paid to air carriers who deduct it from the air freight rate, at the time of export of agricultural products or directly to exporters who pay the full rate to air carriers for their products.

Subsidy application files relating to the promotion of exports of cut flowers and ornamental plants by air are submitted, in duplicate, to the one-stop shop of the Provincial Directorate of Agriculture of Casablanca. The files consist of the following documents:

- A grant request;
- A copy of the CIN for natural persons;
- A copy of the statutes and legal documents designating the persons authorized to act on their behalf, for legal entities;
- A copy of the air waybill;
- A copy of the cargo manifest established by the air carrier and endorsed by the customs services;
- A summary invoice for air waybills signed by the air freight director or his agent;
- Certificate of the applicant's RIB.

## PROMOTION AND DIVERSIFICATION OF EXPORTS

### 1- Stages of making investments and submitting files

Step 1: Realization of export

Step 2: Request the grant

### 2- Deadlines for making investments and submitting subsidy application files

Purpose or operation	Deadline for submitting a file	
Exports of agricultural products of plant origin	12 months	From the end date of the export campaign
Exports of agricultural products of animal origin	12 months	From the date of export
Exports of fresh fruits and vegetables, cut flowers and ornamental plants by air:  - Files filed by exporters - Files filed by air carriers	12 months 24 months	From the date of export

Additional deadlines may be granted if the request is made by the applicant before the expiration of the initial deadline.

**All files are submitted to the one-stop shop against deposit receipts.**

**Request more information from:**

- One-stop shops from the Provincial Directorates of Agriculture or the Regional Agricultural Development Offices
- MAPMDREF/FDA website: [www.agriculture.gov.ma/fda](http://www.agriculture.gov.ma/fda)

# AIDES AUX PROJETS D'AGRÉGATION

## **- IRRIGATION AND FLAT SUBSIDY:**

- Joint order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests , of the Minister of the Interior and the Minister delegate to the Minister of Economy and Finance, responsible for budget n°559.23 of 6 Chaaban 1444 (February 27, 2023) modifying and supplementing the joint order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, of the Minister of the Interior and the Minister of Economy and Finance and Administration Reform n°2411.19 of 29 Safar 1441 (October 28 2019) setting the amounts, rates, ceilings and terms of granting subsidies granted to agricultural aggregation projects. (BO AR n°7188 of 04/20/2023)

**Subsidies at preferential rates relating to irrigation and agricultural equipment projects within the framework of aggregation projects are granted in two tranches.**

### **has. The first tranche of this grant:**

Calculated on the basis of the rates and ceilings set for the 1st tranche. This tranche is served after completion of the investment to be subsidized.

### **b. The second tranche of this grant:**

Calculated on the basis of the rates and ceilings set for**the total subsidy (1)**, reduced by the amount granted in**the first tranche (2)**.

- This second tranche is served at the end of the first year of delivery, by the aggregates, of their production to the aggregator, in view of a discharge given for this purpose by the said aggregator.
- For the aggregator, this second tranche is granted on the basis of a certificate issued to it by the Regional Directorate of Agriculture of domiciliation of the project indicating that the said aggregator has honored its commitments in terms of technical assistance and supervision. aggregates.

## 1- LOCALIZED AND SUPPLEMENTARY IRRIGATION:

has. Rates and ceilings:

- Localized irrigation projects

- *Localized irrigation projects carried out by farmers operating an area of less than or equal to 20 hectares*

Operation	Component	1st tranche		2nd tranche			
		Rate (in % of cost)	Ceiling amount		Rate (in % of cost)	Ceiling amount	
			Ceiling by component	Ceiling overall by operation		Ceiling by component	Overall ceiling per operation
Equipment of the farms agricultural in network irrigation	Well and drilling	75	500 Dh per linear meter depth	28,500 Dh per hectare net equipped	20	130 Dh per linear meter of depth	7,600 Dh per net hectare team
	Device pumping		4,000 Dh per KW of power installed			1,100 Dh per KW of installed power	
	Station of head		7,100 Dh per net hectare team			1,900 Dh per net equipped hectare	
	Pipelines		9,000 Dh per net hectare team			2,400 Dh per net equipped hectare	
	Drippers		11,250 Dh per net hectare equipped with drippers self-regulating			3,000 Dh per net hectare equipped with self-drippers regulating	
			9,750 Dh per net hectare equipped with drippers turbulent			2,600 Dh per net hectare equipped with turbulent drippers	
			7,500 Dh per net hectare equipped with sheath			2,000 Dh per net hectare equipped with duct.	
	Automation		2,300 Dh per net hectare team			610 Dh per net equipped hectare	
			35 Dh per m <sup>3</sup> volume pool total	9,000 Dh per net hectare team		9 Dh per m <sup>3</sup> of total volume of basin	2,400 Dh per net hectare team
Basin of storage water	Basin of storage water						

- Localized irrigation projects carried out by farmers operating an area of more than 20 hectares

Operation	Component	1 <sup>st</sup> time slice			2 <sup>nd</sup> slice		
		Rate (in % of cost)	Ceiling by component	Ceiling overall by operation	Rate (in % of cost)	Ceiling by component	Overall ceiling per operation
Equipment of the farms agricultural in network irrigation	Well and drilling	60	400 Dh per linear meter depth	23,000 Dh per hectare net equipped	20	130 Dh per linear meter of depth	7,600 Dh per net hectare team
	Device pumping		3000 Dh per KW of power installed			1100 Dh per KW of power installed	
	Station of head		5,700 Dh per net hectare team			1,900 Dh per net hectare team	
	Pipelines		7200 Dh per net hectare team			2,400 Dh per net hectare team	
	Drippers		9,000 Dh per net hectare equipped with drippers self-regulating			3000 Dh per net hectare equipped with drippers self regulating	
			7,800 Dh per net hectare equipped with drippers turbulent			2600 Dh per net hectare equipped with drippers turbulent;	
			6,000 Dh per net hectare equipped with sheath.			2,000 Dh per net hectare equipped with sheath.	
	Automation		2,000 Dh per net hectare team			610 Dh per net hectare team	
			30 Dh per m <sup>3</sup> volume pool total			9 Dh per m <sup>3</sup> volume total of basin	
	Basin of storage water		7,000 Dh per hectare net equipped			2,400 Dh per net hectare team	

- **Supplemental irrigation projects**

- *Supplementary irrigation projects carried out by farmers operating an area less than or equal to 20 Ha*

Operation	Component	1 <sup>time</sup> slice			2 <sup>th</sup> slice		
		Rate (in % of cost)	Overall ceiling by component	Ceiling overall by operation	Rate (in % of cost)	Overall ceiling by component	Overall ceiling per operation
Equipment of the farms agricultural in network irrigation	Well and drilling	75	500 Dh per linear meter depth	25,000 Dh by hectare net equipped	20	130 Dh per linear meter depth	6,700 Dh per hectare net equipped
	Device pumping		4,000 Dh per KW of power installed			1,100 Dh per KW of power installed	
	Device watering by aspersion		21,000 Dh per net hectare team			5,600 Dh per net hectare team	
Basin of storage water	Basin of storage water		35 Dh per m <sup>3</sup> volume pool total	8,000 Dh by hectare net equipped		9 Dh per m <sup>3</sup> of total volume of basin	2,000 Dh per net equipped hectare

- *Supplementary irrigation projects carried out by farmers operating an area greater than 20 Ha*

Operation	Component	1 <sup>time</sup> slice			2 <sup>th</sup> slice		
		Rate (in % Cost)	Ceiling overall by component you	Ceiling overall by operation	Rate (in % Cost)	Overall ceiling by component	Ceiling overall by operation
Equipment of the farms agricultural in network irrigation	Well and drilling	60	400 Dh per meter linear of deep r	20,000 Dh by hectare net team	20	130 Dh per meter linear of depth	6,700 Dh per net hectare team
	Device pumping		3,000 Dh per KW of power installed			1,100 Dh per KW power installed	
	Device watering by aspersion		16,000 Dh by hectare net equipped			5,600 Dh per net hectare team	
Basin of storage water	Basin of storage water		25 Dh per m <sup>3</sup> of volume total of basin	6,000 Dh by hectare net team		9 Dh per m <sup>3</sup> of total volume of basin	2,000 Dh per net hectare team

## **b. Creation of the financial aid application file:**

### **i. Request for prior approval:**

Before the investment is made, the applicant submits the application file for examination of the localized irrigation project or supplement in electronic and paper version. This file includes the following documents:

- A request for prior approval;
- Documents and pieces allowing the applicant to be identified:

#### *i. For natural persons:*

- Copy of the applicant's identification document;
- Copy of the mandate and copy of the agent's identification document if applicable,

#### *j. For legal entities:*

- A copy of the statutes or the extract from the commercial register or the register of cooperatives, if applicable;
- A copy of the minutes of the last general meeting;
- A copy of the document designating the legal representative as well as a copy of the document identifying him.
- Any document justifying the applicant's legal link with the project support plot (complete the form reserved for this purpose on the Department of Agriculture electronic site)
- For the case of collective projects carried out by groups of farmers who are organized around an agricultural association or cooperative or economic interest group or Agricultural Water User Associations (AUEA),
- A signed mandate from the farmers concerned designating the legal representative to request and receive, by proxy, in their name and on their behalf, the financial assistance from the State from which they may benefit under the project;
- Commitment of the farmers concerned to maintain the subsidized investment
- Copy of documents and pieces allowing each farmer in the group to be identified.
- Authorization to dig wells or boreholes if applicable;
- Copies of the necessary documents and authorizations justifying the availability of water resources necessary to cover the project's water needs. The documents to be submitted are as follows:
  - Authorizations or concessions relating to the use of the public hydraulic domain (DPH) for the irrigation of the project's operations, for projects for which water withdrawals are authorized;
  - A certificate from the relevant ORMVA or DPA confirming access to water from the collective irrigation network, for projects located within areas developed in part or in full by the State. However, in the event of additional water withdrawals from groundwater, withdrawal authorization will be required for the wells or boreholes concerned;
  - Documents justifying private rights to water resources, for projects with acquired water rights to water resources.

- The technical file of the project which includes the following elements:
  - *A technical calculation note to justify:*
    - The adequacy between available water resources and the water needs of the crops to be irrigated;
    - The sizing of the irrigation project;
    - The stability of the basin as well as the process of its construction and the devices for its security for water storage basins with a total storage capacity exceeding 10,000 square meter (m<sup>3</sup>).
  - *The drawn parts of the project:*
    - A detailed plan of the installation on an appropriate scale, signed and sealed with the endorsement approved by the engineer or technician who established the study.

If the relief is significant, a drawing of the detailed plan of the project must be drawn up, composed of contour curves showing the existing height differences and slopes (dimensional plan).

    - A detailed plan of the basin at an appropriate scale;
    - A plan of the shelters specifying their dimensions and the construction materials provided.
  - *Estimated quotes for equipment, materials and arrangements grouped by component of the project and must be established by the qualified company responsible for the project;*
  - *The supplier's commitment to equip the project with equipment complying with Moroccan Standard No. 12.1.100-2007 (Localized irrigation installation - General requirements);*
  - *The equipment test bulletins provided for the project equipment, issued less than two years ago, by the competent services of the Department of Agriculture*
  - *Catalogs mentioning the operating characteristics of the main equipment of the installation: pumps, motors, control and adjustment valves, electrical and automation equipment, fertigation equipment and water distributors;*
  - *A copy of the documents justifying the technical qualifications of the companies or approval of the design office having carried out the studies and who will supervise the completion of the project*
  - An aggregation certificate for the aggregator and for the aggregates.

## **ii. Grant application:**

### **(a) 1 time slice :**

After the investment, the applicant submits the subsidy application file for the localized irrigation project or supplement in electronic and paper version. This file includes the following documents:

- Subsidy request;
- The original final invoices detailed in quantity, unit price and total price and by component. Where applicable, small farmers may present, instead of final invoices, statements justifying the earthworks of the trenches for the pipes, when they are carried out by the farmers using their own means.
- Copies of proof of payment of final invoices;

- The RIB certificate of the applicant's bank account.
- An aggregation certificate for the aggregator and for the aggregates.

### (b) 2<sup>th</sup> slice :

The request for granting the 2<sup>th</sup> tranche is filed after at least one year following the date of filing of the request for 1<sup>st</sup> slice and after delivery of the aggregate production to the recovery unit.

The application file for granting the 2<sup>th</sup> tranche includes the following documents:

- A request for the granting of the second tranche of the subsidy;
- For aggregates: a discharge issued by the aggregator attesting to the delivery of the aggregate's production to the recovery unit and specifying the total quantity delivered;
- For the aggregator: a certificate issued by the Regional Directorate of Agriculture where the project is located, indicating that the said aggregator has honored its commitments in terms of assistance and technical supervision of the aggregates.

## 2. Lump sum grant:

- **Joint Order of the Minister of Agriculture, Maritime Fisheries, Rural Development and Water and Forests, the Minister of the Interior and the Minister of the Economy, Finance and Administration Reform No. 2411 - 19 of 29 Safar 1441 (October 28, 2019) setting the amounts, rates, ceilings and terms of granting subsidies granted to agricultural aggregation projects. BO n°6992 (fr) of June 3, 2021.**

### - Packages for plant sectors:

has. Rates and ceilings:

Agricultural aggregation project category	Unit amount		
	Small areas	Averages surfaces	Large areas
Aggregation project <b>citrus</b> around a packaging and/or processing unit	2,250 dhs/ha	1,500 dhs/ha	750 dhs/ha
Aggregation project <b>olive Tree</b> around a crushing and/or canned olive unit	Bour: 675 dhs/ha Irrigated: 1,650 dhs/ha	Bour: 450 dhs/ha Irrigated: 1,100 dhs/ha	Bour: 225 dhs/ha Irrigated: 550 dhs/ha
Aggregation project <b>fruit growing</b> around a cold storage and/or packaging and/or processing unit	2,250 dhs/ha	1,500 dhs/ha	750 dhs/ha
Aggregation project <b>Vine</b> around a packaging unit and/or transformation	2,250 dhs/ha	1,500 dhs/ha	750 dhs/ha
Aggregation project <b>date palm</b> around a packaging and/or cold storage and/or processing unit	4,500 dhs/ha or 4500 dhs/80 feet (**)	3,000 dhs/ha or 3,000 dhs/80 feet (**)	1,500 dhs/ha or 1,500 dhs/80 feet (**)
Aggregation project <b>vegetable crops</b> around a cold storage and/or freezing and/or packaging and/or processing unit	5,250 dhs/ha	3,500 dhs/ha	1750 dhs/ha

Agricultural aggregation project category	Unit amount		
	Small areas	Averages surfaces	Large areas
Aggregation project <b>Red fruits</b> around a packaging and/or freezing and/or processing unit	5,250 dhs/ha	3,500 Dh/ha	1750 dhs/ha
Aggregation project <b>autumn cereals</b> (durum wheat, soft wheat, barley) around a grain storage and/or processing unit	Bour: 600 dhs/ha Irrigated: 825 dhs/ha	Bour: 400 dhs/ha Irrigated: 550 dhs/ha	Bour: 200 dhs/ha Irrigated: 275 dhs/ha
Aggregation project <b>spring cereals</b> irrigated (rice, corn) around a grain storage and/or processing unit	Rice: 1200 dhs/ha	Rice: 800 dhs/ha	Rice: 400 dhs/ha
	Corn: 825 dhs/ha	Corn: 550 dhs/ha	Corn: 275 dhs/ha
Aggregation project <b>legumes</b> around a storage and/or packaging and/or processing unit	750 dhs/ha	500 dhs/ha	250 dhs/ha
Aggregation project <b>oilseed crops</b> around a crushing unit	1,955 dhs/tonne of production delivered		
Aggregation project <b>sugar crops</b> around a processing unit (***)	825 dhs/ha	550 dhs/ha	275 dhs/ha
Aggregation project <b>certified cereal seeds</b> around a packaging unit	1500 dhs/ha	1000 dhs/ha	500 dhs/ha
Aggregation project <b>certified potato seeds</b> around a refrigeration and/or conditioning unit	6000 dhs/ha	4000 Dh/ha	2000 dhs/ha
Aggregation project <b>certified legume seeds</b> around a packaging unit	1500 dhs/ha	1000 Dh/ha	500 dhs/ha
Aggregation project <b>certified seeds of oilseed crops</b> around a packaging unit	3000 dhs/ha	2000 Dh/ha	1000 dhs/ha
Aggregation project <b>organic citrus</b> around a packaging and/or processing unit	3000 dhs/ha	2,000 dhs/ha	1000 dhs/ha
Aggregation project <b>the organic olive tree</b> around a crushing and/or canned olive unit	1425 dhs/ha	950 dhs/ha	475 dhs/ha
Aggregation project <b>organic vegetable crops</b> around a refrigeration and/or packaging and/or freezing and/or processing unit	6000 dhs/ha	4,000 dhs/ha	2000 dhs/ha
Aggregation project <b>the argan tree</b> around a crushing and/or extraction and/or transformation unit	500 DH/tonne of production delivered		
Aggregation project <b>saffron</b> around a packaging and/or processing unit	7500 dhs/ha	5,000 dhs/ha	2500 dhs/ha

Agricultural aggregation project category	Unit amount		
	Small areas	Averages surfaces	Large areas
Aggregation project <b>the perfume rose</b> around a processing and/or packaging unit	7500 dhs/ha	5,000 dhs/ha	2500 dhs/ha
Aggregation project <b>sesame</b> around a packaging and/or processing unit	3,000 dhs/ha	2,000 Dh/ha	1,000 dhs/ha
Aggregation project <b>carobs</b> around a packaging and/or processing unit	2,250 dhs/ha	1,500 Dh/ha	750 dhs/ha
Aggregation project <b>cumin</b> around a packaging and/or processing unit	3,000 dhs/ha	2,000 Dh/ha	1,000 dhs/ha
Aggregation project <b>aromatic and medicinal plants</b> grown around a packaging unit and/or transformation	3,000 dhs/ha	2,000 Dh/ha	1,000 dhs/ha
Aggregation project <b>actus</b> around a packaging and/or processing unit	3,000 dhs/ha	2,000 Dh/ha	1,000 dhs/ha

(\*\*): the categories of aggregated areas (small, medium and large areas) are defined in the table below of eligibility standards.

### b. Eligibility standards

Sector	Small surfaces	Averages surfaces	Large areas
Citrus	≤ 10 ha	> 10 and ≤ 50 ha	> 50 ha
Olivier	≤ 10 ha	> 10 and ≤ 50 ha	> 50 ha
Fruit growing	≤ 5 ha	> 5 and ≤ 10 ha	> 10 ha
Vine	≤ 5 ha	> 5 and ≤ 10 ha	> 10 ha
Date palm	≤ 2 ha	> 2 and ≤ 5 ha	> 5 ha
Market gardening	≤ 5 ha	> 5 and ≤ 20 ha	> 20 ha
Red fruits	≤ 5 ha	> 5 and ≤ 10 ha	> 10 ha
Cereals	≤ 10 ha	> 10 and ≤ 50 ha	> 50 ha
Legumes	≤ 10 ha	> 10 and ≤ 50 ha	> 50 ha
Sugar Crops	≤ 10 ha	> 10 and ≤ 50 ha	> 50 ha
Cereal Seeds	≤ 10 ha	> 10 and ≤ 50 ha	> 50 ha
Potato seeds	≤ 5 ha	> 5 and ≤ 10 ha	> 10 ha
Legume seeds	≤ 10 ha	> 10 and ≤ 20 ha	> 20 ha
Organic citrus	≤ 10 ha	> 10 and ≤ 20 ha	> 20 ha
Organic olive	≤ 10 ha	> 10 and ≤ 20 ha	> 20 ha
Organic vegetable crops	≤ 2 ha	> 2 and ≤ 5 ha	> 5 ha
Saffron	≤ 1 ha	> 1 and ≤ 2 ha	> 2 ha
Perfume rose	≤ 1 ha	> 1 and ≤ 2 ha	> 2 ha

Sesame	≤ 5 ha	> 5 and ≤ 20 ha	> 20 ha
Carob tree	≤ 10 ha	> 10 and ≤ 20 ha	> 20 ha
Cumin	≤ 5 ha	> 5 and ≤ 10 ha	> 10 ha
Aromatic and medicinal plants	≤ 5 ha	> 5 and ≤ 10 ha	> 10 ha
Cactus	≤ 5 ha	> 5 and ≤ 10 ha	> 10 ha

For agricultural aggregation projects for sugar crops around a processing unit, the flat-rate subsidy is granted on the basis of additional areas compared to the reference situation corresponding to the average area sown during the three agricultural seasons of 2010, 2011 and 2012, as follows:

Sugar crops	Region	Beet area sugar (in ha)	Sugarcane area (in Ha)
	Gharb	6,372	11895
	Doukkala	13,821	-
	Tadla	13,524	-
	Loukkous	2,517	3633
	Moulouya	4,221	-

#### - Packages for animal sectors:

has. Rates and ceilings:

Agricultural aggregation project category	Unit amount		
	Small herds	Livestock resources	Large livestock
Aggregation project <b>red beef and/or sheep and/or goat meat</b> around a fattening unit and/or a slaughterhouse	525 dhs/head for cattle 150 dhs/head for sheep and goats	350 dhs/head for cattle 100 dhs/head for sheep and goats	175 dhs/head for the cattle 50 dhs/head for sheep and goats
Aggregation project <b>Camel red meats</b> around a fattening unit and/or a slaughterhouse	1200 dhs/head	800 dhs/head	400 dhs/head
Aggregation project <b>cow's milk</b> around a dairy processing unit	420 dhs/head	280 dhs/head	140 dhs/head
Aggregation project <b>goat milk</b> around a dairy processing unit	150 dhs/head	100 dhs/head	50 dhs/head
Aggregation project <b>camel milk</b> around a dairy processing unit	1350 dhs/head	900 dhs/head	450 dhs/head
Aggregation project <b>poultry meat</b> around a poultry slaughterhouse	1,500 dhs/tonne of production delivered	1,000 dhs/tonne of production delivered	500 dhs/ton of production delivered
Aggregation project <b>eggs</b> consumption around a packaging unit	300 dhs/ton of production delivered	200 dhs/ton of production delivered	100 dhs/ton of production delivered
Aggregation project <b>eggs</b> consumption around a processing unit	600dhs/ton of production delivered	400dhs/ton of production delivered	200dhs/ton of production delivered

Agricultural aggregation project category	Unit amount		
	Small herds	Livestock resources	Large livestock
Aggregation project <b>beekeeping</b> around a honey extraction and packaging unit (honey house)	11,250 dhs/tonne of production delivered	7,500 dhs/tonne of production delivered	3,750 dhs/ton of production delivered

(\*) : the categories of aggregated herds (small, medium and large herds) are defined in the table below of eligibility standards.

#### b. Eligibility standards:

Sector	Small herds	Livestock resources	Large herds
Beef red meats	≤ 20 heads	> 20 and ≤ 60 heads	> 60 heads
Red sheep and goat meats	≤ 60 heads	> 60 and ≤ 150 heads	> 150 heads
Camel red meats	≤ 20 heads	> 20 and ≤ 60 heads	> 60 heads
Cow's milk	≤ 5 heads	> 5 and ≤ 20 heads	> 20 heads
Goat milk	≤ 10 heads	> 10 and ≤ 30 heads	> 30 heads
Camel milk	≤ 20 heads	> 20 and ≤ 60 heads	> 60 heads
Poultry meat	≤ 30,000 topics	> 30,000 and ≤ 200,000 subjects	> 200,000 topics
Eggs for consumption	≤ 50,000 topics	> 50,000 and ≤ 100,000 subjects	> 100,000 topics
Beekeeping	≤ 10 hives populated	> 10 and ≤ 50 populated hives	> 50 populated hives

#### C. Creation of the financial aid application file:

The aggregator submits annually to the DRA housing the recovery unit subject to the aggregation project a flat-rate subsidy application file per tranche. This file is made up of the following documents:

- A request for the lump sum grant for the tranche concerned;
- A copy of the aggregator's aggregation certificate;
- A commitment from the aggregator to maintain its operational project for a period of 5 years from the date of issue of the aggregation certificate to said aggregator.
- A report prepared by the aggregator justifying the fulfillment of its commitments in terms of assistance and technical support for the aggregates;
- An extract from the register which notably records the quantity delivered by each aggregate, the prices awarded, the delivery dates and the references of the payment receipts for the production delivered, certified by a chartered accountant;
- A declaration on the honor of the aggregator including the list of aggregates, legal entities in which it does not hold, directly or indirectly, capital shares greater than or equal to 34%;
- For each aggregate, the documents justifying the exploitation of the surface areas/number of livestock/number of hives, as follows:
  - For plant sectors, any legal, administrative document or any other document allowing the identification of the plot(s) covered by the aggregation contracts;

- For the poultry sector: a copy of the authorization to carry out poultry farming activities, if applicable;
- For other animal sectors: any document allowing the identification of the livestock / number of hives issued in accordance with the regulations in force or a sworn declaration from the representative mentioning the number of said livestock / number of hives.

# AID FOR AGGREGATION PROJECTS

## 1- Stages of making investments and submitting files:

## 2- Deadlines for making investments and submitting grant application files:

PURPOSE OR OPERATION	FIRST INSTALLMENT		SECOND INSTANCE
	DEPOSIT DEADLINE CASE	DEPOSIT DEADLINE CASE	DEPOSIT DEADLINE CASE
Hydro-agricultural development (irrigation):			At least 12 months after submission of the grant application file for the first tranche and after delivery of the production
-Projects carried out individually	24 months	from the date approval prior	
-Projects carried out by tranche	30 months		
Lump sum grant		Depending on the progress of the project	

*Additional deadlines may be granted if the request is made by the applicant before the expiration of the initial deadline.*

**All files are submitted to the one-stop shop against dated and signed deposit receipts.**

**Request more information from:**

- One-stop shops from the Provincial Directorates of Agriculture or the Regional Agricultural Development Offices
- MAPMDREF website:[www.agriculture.gov.ma/fda](http://www.agriculture.gov.ma/fda)
